CHAPTER - 1 INTRODUCTION TO THE COURSE

1.1 INTRODUCTION

TheDiplomainElementaryEducation(D.El.Ed.)programmeisa2-yearteacher trainingprogrammewithfoursemestersintendedtotrainteachersforelementarystageof education, that is, from classes 1 to 8. It is a skill oriented programme based on theory and a lot of practice. Thus, the course consists of two major components: Theory and Practicum. The syllabus of the course includes Foundation Papers, Pedagogical Papers, Value added Co-Curricular Papers along with Self-Development Papers. School Experience Programme, Teaching Practice and Internship, Assignments, Seminars, Workshops,andProjects,etcareintegralpartofthecurriculum.

The student teachers are required to study 28 papers in the enitere course, out of which 20 papers carry both internal and external evaluation. The other 08 papers are planned only for internal evaluation as they focus more practical aspects (practice oriented). The external assessment is based on the student-teacher's achievement in the semester-end examinations on the theoretical component, and the internal assessment is based on the student-teacher's performance in the practicum component. Projects/assignments, teaching practice and internship and other components in the practicum are designed to improve the professional skills of student-teachers and are assessed internally by the faculty under the guidance and supervision of the institution.

The main aim of the teacher training programme is to prepare reflective practitionerson why and how of the educational policies. Hence, student teachers are abletore flect critically on their teaching practices to improve further. They will be able to understand that teaching is embedded in the social context of learners. Besides, they will also be thorough with the subject matter that they are teaching. The student teachers will be acquainted with the modes of inquiry and epistemological frameworks of their subjects and familiarize themselves with how children learns othat they can develop and use teachings trategies that are responsive to the learning needs of their learners indiverse and plural settings of elementary classrooms.

1.2 COURSEOBJECTIVES

Broad Aim of the Course: To create future teachers with commitment, competencies, professional skills and values capable of building a humane, healthy and learning society.

The Course is designed with following objectives which help to achieve the broad aim of the course.

To equip the student-teachers with . . .

- The knowledge of aims and perspectives of elementary education including preschooleducation.
- Necessary professional skills especially in handling classes in multi-grade and multi-levelsetting.
- Goodandhealthyattitudes topromoteintegrated developmentamongchildren.
- Theknowledgeofdiversityinculture, region, religion, caste, language prevailing in the society to promote secular, democratic and socialistic society in scientific manner.
- The skills of attending to the societalneeds.
- Theknowledgeoffactors which influenceed ucation, growth and development of emerging Indian Society.
- The necessaryknowledgeandskillsforensuringquality'EducationforAll'.
- Managerialandplanningskillsneededforeffectivemanagementofclassroomand school.
- The knowledge of conduct of empirical child study in order to identify and promote Child's innate abilities, interests, needs andurges.
- Theknowledgeoflearnercentered, competency based teaching-learning strategies to help the child to construct knowledge.
- Necessary inputs relating to ICT, Art Education, Work Experience, Health and PhysicalEducation.
- Necessary skills to teach and assess (CCE) curricular areas like Languages, Mathematics, General Science and Social Studiesetc.
- The competencies to deliver lessons in the classroom using Educational Technology (Information and CommunicationTechnology).
- The knowledgeoftheobjectivesenvisagedinNationalCurriculumFramework- 2005 and State Curriculum Frame Work for school education for effective classroomtransaction.
- The Knowledge of Rightto Information Act 2005 and Rightto Education Act 2009.

- The knowledge of objectives and interventions of Central and State Government programmes / Schemes / Projects like Rajiv Vidya Mission (SSA) / KGBVs / MDM / RMSA / Model Schools / Open Schoolsetc.
- The concept and importance of InclusiveEducation.
- The Knowledge and importance of inculcation of Life skills and values

10.00 to 10.55 AM	1 st Period		
11.55 to 11.50 - Noon	2 nd Period		
11.50 to 12.05 PM	Small recess		
12.05 to 1.00 PM	3 rd Period		
1.00 to 1.45 PM	Lunch		
1.45 to 2.40 PM	4 th Period		
2.40 to 3.35 PM	5 th Period		
3.35 to 3.50 PM	Small recess		
3.50 to 4.45 PM	6 th Period		

Note:

- 1) Thesetimings are in accordance with NCTE guidelines. The institutions hallwork for a minimum of 36 hours in aweek.
- 2) If the above timings are inconvenient to any Elementary Teacher Education Institutions due to local reasons, they may submit proposals for change of timings to the Commissioner of School Education duly explaining the reasons for such alterations. Till revised orders are issued by C&DSE, the specified timings above alone may be followed.

3) Singlesessionsmaybeconducted in DIETs also from 15th March andduringsummeronparwithschools, since the programmes and activities such as Teaching Practice and internshiparelinked with school time table.

1.4 HOLIDAYS

The Institution shall have the following holidays

- a) AllPublicHolidaysdeclaredbytheGovernmentofAndhraPradesh.
- b) FiveOptionalholidays—theseholidaysshouldbeindividual-based.But,the Institution should not be closed on optionalholidays.
- c) Threediscretionaryholidays(Localholidays)identifiedbytheInstitutionin consultation with Staff &Students.
- d) 1^{st} Term, 2^{nd} Term and Summer Holidays are to be followed/observed as per the school academiccalendar.

There shall be no other holidays for the institution except those mentioned in (a) to (d).

CHAPTER - 2

GUIDELINES FOR TRANSACTING VARIOUS ACTIVITIES/ COMPONENTS in D. El. Ed Course

In this chapter, a detailed procedure and guidelines for conducting various activities components in the D.El.Ed course have been outlined for the guidance of the Teacher Educators.

2.1 GENERALINSTRUCTIONS

- 1) The D. El. Ed. course is a 2-year academic programme with four semesters. However, the students may be permitted to complete the course within 3 academic years from the date of admission in to the course.
- 2) TheStudentteacher/smaynormallybepromoted to the next consecutive semester/s irrespective of their result at the semester-endexamination.
- 3) A minimum of 80% of attendance in the instructional periods, and 90% for the Practicum is mandatory for allowing the student teachers to sit for the final examination.
- 4) The performance of a student teacher is assessed over period of 2 years in 4 semesters for a maximum of 2800 marks which includes. Theory for 1000 marks and Practicum for 1800 marks. Thus, the weightage given to Practicum is almost doubleastheentirecourseisskill-orientedandaimsattrainingthestudentteachers to become efficient teachers. The weightage of Marks in the D.El.Ed. Course is presented in the followingtable.

Semester No	Theory (Max. Marks)	Practicum (Max. Marks)	Total (Max.Marks)
I	300	400	700
II	200	500	700
III	300	400	700
IV	200	500	700
Total Marks	1000	1800	2800

5) Under Library activities, every student teacher should read at least one book per month related to 'Educational Values', 'Professional Ethics', other books on education, and are encouraged to write Reviews/reflections on the classroom. (List of books is given in Annexure-VII.)

- 6) The Student Teachers are instructed to reflect the ideas mentioned in the books in their Teaching Practice on the following aspects: 1) nature of the child, 2) pedagogicalaspects,3)nurturing values among children, and other aspects.
- 7) Duringtheteachingpracticeperiod,thetraineeshallattend theschoolassemblyand staytheentiredayintheschooltilltheclosingoftheschoolandparticipateinallthe activities as a regularteacher.
- 8) One period per week should be allocated to focus on innovative practices, club activities, group discussions, preparation of TLM and worksheets, book review setc under pedagogy subjects.
- 9) Orientation to the Student Teachers (First week): The institution shall arrange orientation to the student teachers on the following issues during the first week of thecourse.
 - i) Facilities offered by the Institution ingeneral.
 - ii) Functions of the Institution / Branches of DIET
 - iii) Faculty of theInstitution
 - iv) Salient features of the D.El.Ed.Course.
 - v) Roles & responsibilities of trainee-teachers.
 - vi) Practicum for both General and Methodology subjects, etc.
 - vii) Syllabus and subjects in D.El.Ed. Course (4Semesters).
- 10) In all Primary schools across the State, Multi-grade teaching is an in evitable situation. Hence trainees need to be acquainted with Multi-grade situation. There should be a stress on the acquisition of Multi-grade strategies. In this context, trainees are instructed to teach 7 periods in mono-grade situation in each subject and the remaining 3 periods should be planned on Multi-Grade Situation
- 11) **Selection of Optional Subject:** In Semester-III under Paper-303, every student teacher has to select One Optional subject/paper in one of the methodologies at Elementary level. While selecting the optional subject the student teacher should have i) studied the subject at intermediate level and ii) has fair and equal chance for selecting either English or Telugu as optional subject if s/he has studied the subject at Intermediatelevel.

2.2 INSTITUTIONAL OBSERVATION PROGRAMME(IOP)

The Institutional Observation Programme (IOP) in Semester-I is a "hands on experience programme" through which the teacher trainee will be exposed to different schooling systems to familiarize themselves with the existing scenario of the school activities.

During the first semester course, the student teachers have to visit different types of schools for 10 days under Institutional Observation Programme (IOP), to develop a primary understanding on the nature and functioning of the different schools. 70 marks are exclusively allotted for the Institutional Observation Programme (IOP) in the internal assessment.

Before the student teachers are sent for Institutional Observation Programme (IOP),theTeacherTrainingInstituteshallconductaworkshopintheinstitutetobriefthe modalities of observation in the school. The student teachers shall visit the schools well before the commencement of the school assembly. The student teacher shall visit the schoolwithachecklistforobservationandmakeanoteofthedetailsintheirobservation note books. Later, the student teachers have to write in the detailedrecord.

DuringtheIOP, the studentteachers are instructed to observe the classest aught by teach ers in the primary schools as a part of pre-practice teaching. This will help them to get acquainted with the teaching in primary schools.

The student teachers hall visit the different types of schools a sout line din the table below.

Sl. No.	Type of School	No. of Days.
1	Government Primary/Upper-PrimarySchool	2 days
2	Private Recognized Primary School	1 day
3	Private Recognised Pre-primary Sections in the schools.	1 day
4	AnganwadiCentres	1 day
5	KGBV Schools / Model Schools	1 day
6	Residential Schools – General / SC/ ST/ BC Welfare	1 day
7	High School	1 day
8	Special Schools / Bhavitha Centre	1 day
9	ALA Primary Schools/ Model Primary School	1 day

A detailed procedure on the observation of the schools along with the suggested Checklists is appended in the Annexure

2.3 DEMONSTRATIONLESSONS

Planning and teaching of lessons is the crux of the entire D.El.Ed. Course. Demonstration lessons play a key role in guiding and training the student teachers who are new to the teaching field, and hence, they are one of the important activities in this course.

The student teachers are to be trained properly in dealing with different classes while teaching at Elementary level which consists of classes 1 to 8. As there will be a sporadic change in the learning among elementary school children, the teaching and learningstrategies may not be uniform. Hence, the classes at Elementary school levelare further categorized as 'early primary' (classes 1 and 2), 'middle primary' (classes 3 to 5) 'higher / upper primary' (classes 6 to 8). Both the faculty and student teachers of the Elementary Teacher Education Institutions must be conscious about the sedivisions while taking up the Demonstration Lessons and Teaching Practices essions.

The student teachers are to deal with 5 curricular methodology subjects, viz., Telugu, English, Mathematics, EVS – General Science and Social studies, along with 4 value added subjects for teaching the elementary school children. Hence, the concerned methodology lecturer should give at least one demonstration lesson for classes-(1&2), classes-(3 to 5) and classes - (6 to 8) separately for all the 3 levels of elementary classes. OneDLineachoftheValueaddedSubjectsbegivenbytheconcernedlecturer. Trainees are expected to observe the demonstration lessons given by their respective lecturers. One more demonstration lesson on 'Micro teaching' is also expected to be given by the faculty.

Before presentation of the Demonstration Lesson, abrief outline of the less on planis given, and is followed by a brief discussion on the useful points relating to less on.

2.4 TEACHINGPRACTICE

Planning and preparation for Teaching Practice

Teaching Practice consists of two broad components:

- i) Pre-(teaching)-Practicesession/sinDIET/TeacherTrainingInstituteand
- ii) Teaching Practice sessions in School

i) Pre - (Teaching) Practice session/s in DIET/Teacher TrainingInstitute

Before sending students teachers for teaching practice, some activities and workshops need to be completed for capacity building of the trainees.

- Workshops on the preparation of Year Plans, Unit Plans, and Period Plans.
- Workshops on the preparation of Teaching Learning Materials (TLM), Self-Instructional Materials (SLM), Interactive Learning Material (ILM) in Methodology and other co-curricular subjects.
- Demonstrationlessonsbyfacultyincurricularandco-curricularsubjects.
- Micro teaching to make the trainees to acquire teachingskills.
- Demonstration of lessons using Information and Communication Technology (ICT), viz., video, audio, PPTetc.
- Simulated (Peer)teaching.
- Demonstrations on Multi-gradecontext.
- Orientationontheclassroomobservationandawarenessonclassroomobservation schedule.
- Orientation on the awareness and writing of Reflective Journal(RJ).
- Orientation on Action Research(AR).
- Orientation/basic idea on Continuous and Comprehensive Evaluation(CCE).
- Workshop on the preparation of test items and QuestionPapers.

The pre-Teaching Practice comprises of a) Observation of experienced school teachers b) Peer Teaching and c) Micro-teaching.

a) **Observation of experienced school teachers:** During the IOP, the student teachers are to observe the classes taught by the teachers in the schools as a part of pre-practice teaching. This will help them to get acquainted with the teaching methodology of various subjects inschools.

- b) **PeerTeaching:**BeforethestudentteachersaresentforactualTeachingPractice, encouragethemto takeup 'simulatedteaching'intheclassroomwiththepeergroup. Thefacultyguidesthemandoffersuggestionsforimprovingtheirteachingskills.
- c) **Micro-Teaching:** Micro teaching is power ful tool to develop among student teachers faculty should display list of micro teaching skills and train them on those skills. The student teachers are appraised of various micro-teaching skills, viz., Introductiontothelesson, Stimulus Variation, illustrating the concept with examples, 'Art of Questioning', 'closure of the lesson', 'use of blackboard', etc. The student teachers are expected to teach at least 4 micro-teaching lesson stothe peer group (cotrainees) by writing lesson plans under the guidance of faculty.

ii) Teaching Practice in Schools

After giving orientation on the preparation of teaching lesson plans in the pre-(teaching) practice sessions at Teacher Training Institute, the student teachers are to be sent for actual Teaching Practice in schools.

Each trainee is expected to prepare a lesson plan for each period and teach the lesson accordingly. During teaching practice, the student teacher shall develop a minimum of two lesson plans at each level in each subject using ICT i.e., using video, audio, PPT and also other audio visual resources. The visuals can be downloaded from Internet (digital lessons) if needed.

S/he should stay whole day at school and take part in school practices which include observations, collection of data for the field based practicum records. The data pertaining to all field based practicum shall be collected during the school attachment period.

Awarding the marks under practicum to a student teacher shall be based on his/ her performance in writing the period plans, collection/development of material and undertaking effective by using appropriate TLM.

2.5 INTERNSHIP

Internship is mandatory for every student teacher in the D.El.Ed. course during which period, s/he has to act as 'Real Teacher' in the allotted school to carry out the

learnt teaching skills in a school in the real setting. 16 days have been allotted for internship in Semester – II and Semester – IV for teaching Primary classes – 1 to 5. Out of 16 days, 10 days are meant for teaching curricular subjects, 2 days for Conducting Summative Test and 4 periods for remedial teaching. During first 10 days of internship, eachtraineehastoteachlowerprimarylevelforonesubjectandmiddleprimarylevelfor anothersubject.

In the same way, another 16 days are allotted for Internship in the Optional Subject also on the similar lines. The Tests are evaluated and the results are analysed in the CCE/ Scholastic Achievement Test Record for internal assessment of the student teacher.

2.6 ASSESSMENT/CCERECORD

This is also called as Scholastic Achievement Test (SAT) record. Under each methodology, the teacher trainee has to teach 1 or 2 units completely which includes exercise part also. Both Formative and Summative tests have to be conducted on the units that taught.

The Formative marks distribution as given hereunder:

Children participationandreflection
 Written works ofthechildren
 Projectworks
 Sliptest
 Children participationandreflection
 10marks
 20marks

Formative Test marks shall be reduced to 20 marks and Summative Test shall be conducted for 30 marks.

Summative Test is to be conducted at the end of Internship for Lower Primary in one subject and Middle Primary in another subject, but they should write only one CCE record for each subject. A separate CCE record for Optional Subject is to be submitted by conducting Formative/Summative Tests in the Optional subject as well. The SummativepapershouldbebasedontheAcademicStandardsasprescribedfortheclass.

For each methodology subject, 20 marks are allotted for the CCE/Assessment Record. The detailed procedure for writing the CCE/Assessment Record is appended in Annexure

2.7 FIELD BASED PROJECTS(FBP)

Studentteachersaresupposedtotakeupatleast**One**(field-based)**ProjectWork** ineverySemesterintherespectivepapers.TheField-basedProjectsaretobetakenupin the papers/subjects as suggested in the Semesters. The list of suggested projects is given inthesyllabusbookaswellasinthetextbooksundereachunit.Thestudentteachermust select one project in the subject/paper specified in each semester. The projects given in the syllabus under each unit shall be distributed among the student teachers and see that the entire field based projects must be taken up and presented in the classroom. The completedprojectshouldbesubmittedtotheconcernedfacultyatendofthesemesterfor valuation.

(Detailed procedure for conduct of a project is Appended in Annexure-I).

2.8 ASSIGNMENTS

Every student teacher is supposed to write 2 assignments under specified Paper/s ineachsemester. Each assignment consists of 2 questions, one is reflective based and the other is Library/reference based.

- Reflective based Questions: The answers to these Questions are Reflective in nature. The trainee teachers are expected to write answers linking to their personal experience and professional reflections.
- Library/reference based Questions for extended learning: The answers to these
 questions are analytical innature and demand for referencing the library books/other
 material.

2.9 REFLECTIVE JOURNAL/ CLASSROOMOBSERVATION

Student teachers are to submit a Reflective Journal record which is based on the following:

2.9.1 Self-evaluation

Every student teacher is expected to write reflections in the form of a journal on his experiences during the teaching practice period in each methodology subject. S/he shall reflect on his/her classroom experiences, children learning, impact of various strategies of teaching, relationship with children and his/her feelings etc. The Reflective

Journal includes the written works of the student teacher based on his/her experience in teaching and its impact on children learning. The reflection shall be basically on his/her feelings while teaching and the children's learning achievement. The participation, feelings of the children etc. need to be included. Further, relative impact of different methods/strategiesofteaching,impactofusingTLM,impactofencouragementgivento children etc. also need to be reflected. The journal must reflect the feelings and professionalism of the studentteacher.

2.9.2 Observation of Lesson of Co-trainees

Apart from reflective journal, trainees must observe five lessons pertaining to 5 different co-trainees in the two sessions of teaching practice and internship at each level in each methodology subject.

The Reflective Journal carries 10 marks as internal assessment.

2.10 ACTION RESEARCH(AR)

While teaching lessons to the children during teaching practice/internship, the studentteachers may have come across certain problems either incontent or transactional process. The student teachers have to find solutions to such problems to make the teaching/learning process effective. Action Research is helpful to them in this regard. Hence, Action Research has been made as mandatory for every student teacher either in Telugu or Mathematics subject in the 2nd semester, and also for, any of the academic/curricular subjects in the 4th semester. 20 marks are allotted for this record.

A detailed procedure for writing the Action Research Record is appended in Annexure-6.

2.11 SEMINARS / EXTENSIONLECTURES

Seminars/extensionlectures should be organized regularly in each semester once in a week. The student teacher should be encouraged to participate actively in the seminars. Topics may be suggested to them well in advance so that they refer books, magazines, journals, etc., and the extension lectures are also be given by the experts in different fields related toeducation.

2.12 WORKING WITHCOMMUNITY

 $The Student teachers hould participate in community development activities \ so that they \ldots$

- realizetheimportanceofestablishinggoodrelationshipbetweentheschoolandthe community.
- understands the role of community in school developmental activities like adult literacy, enrolment of 'out of school' children in the formal school system.
- Identifies the needs of the school and be aware of the resources (Human and Materialresources)available. Alltheseactivities shall be organized simultaneously while attending to the Institutional Observation Programme and during Teaching Practice cum Internshipperiod.

2.13 OTHER CURRICULARACTIVITIES

Other curricular activities which influence the academic activities shall be organized in all the Semesters under the guidance of the Lecturers. The other curricular activities include:

- workexperience
- · games and sports
- culturalactivities
- workshops
- clubactivities
- community awarenessactivities
- educational tours
- Library Activities etc.

The student teachers are advised to take partin such activities at school also during the teaching practice period.

2.14 EVALUATION

The curriculum in the present Semester system of D. El. Ed Course emphasizes the importance of Continuous Comprehensive Evaluation (CCE). It is indispensable that all those involved in elementary education should have robust knowledge of a variety of tools, techniques and strategies to assess the development of diverse competencies and attitudes of the learners.

The newly introduced Semester system in Diploma in Elementary Education (D.El.Ed.)represents an effort to strengthen the quality in Elementary Teacher Education through good academic practices. Thus, the curriculum includes the following 3 components.

- Content:Comprises the subject matter of the curriculum, the goals and objectives for children's 'learning.
- ii) **Processes:** This component is the pedagogy of learning, how teacher teach, how teachers evaluate and the ways in which children achieve the goals and objectives of the curriculum.
- iii) **Context:**This includes the setting, the environment in which learning takes place.

Teacher Education Institutes must provide an opportunity for student teachers to integrate and implement these 3 components in the classroom setting. The Learning Outcomesofthestudentteachersinallthese3 componentsneed tobeevaluatedthrough continuous comprehensive evaluation.

Thetwomajorcomponents, both Theory and Practicum, are very important in the D.El.Ed. Course. Of the two, the Practicum component is given more share in the entire course. Thus, the weightage given for the two components is illustrated below.

Semester No	Theory	Practicum	Total
	(Max. Marks)	(Max. Marks)	(Max.Marks)
I	300	400	700
II	200	500	700
III	300	400	700
IV	200	500	700
Total Marks	1000	1800	2800

Thus, the assessment of student teachers' performance in each Semester is done in two modes: i) Internal assessment and ii) External Examination (assessment):

i) Internal Evaluation(Assessment):

Intheinternal evaluation, student teachers' performance is assessed continuously and comprehensively throughout the Semester based on their submission of records, assignments, participation in the TPs. Internship, Seminars, etc, and asperthese tcriteria / marks suggested under each Semester.

ii) External Examination(Assessment):

External Assessment is made by the Director of Govt. Examinations (DGE), Andhra Pradesh at end of each semester through Final Public Examination in i) Theory papers for 2 ½ hours duration for 50 marks each paper, and ii) Final Practical Examination for 30 minutes' duration for 20 marks each in methodology papers.

2.15 THEORYEXAMINATIONS

The performance of student teachers in the theoretical part of the course in each semester is tested through two tests:

- a) Mid-term(Summative)ExaminationisconductedbytheFacultyoftheTeacher Training Institute, and
- b) FinalPublic(External)ExaminationbytheDirectorofGovt.Examinations(DGE), Andhra Pradesh at end of eachsemester.

a) Mid-term (Summative)Examination

A mid-tem (Summative) Examination for 50 marks for each paper in each Semester(inthespecifiedPapers/Subjects)istobeconductedbythefacultyonthePublic Examination pattern. The Mid-term examination marks are to be reduced to 10 for internal assessment.

b) Final (External) Theory PublicExaminations

The final and Public (External) Examination/s at the end of each Semester in the prescribed papers is conducted for 50 marks per each paper, by the Director of Govt. Examination (DGE), Andhra Pradesh on the dates notified by him, as per the Blue Print given below. 2 ½ hours duration will be given for writing answers to each of the final theory examinations.

Blue Print for Theory Papers

Time:2.30hrs

Max.Marks:50

Question Type	No. of Questions.	Marks allotted per each Question	Total Marks
Essay (Internal choice)	3	6	18
Short Answer	4	4	16
Very short answer	5	2	10
Objective	12	1/2	6
Total	24	-	50

2.16 FINAL PRACTICALLESSONS

FinalpracticalExamination(FinalLesson)willbeconducted at the end of Second Semester and also in the Fourth Semester in the concerned methodology subjects, per schedule communicated by the Director for Government Examinations (DGE), Andhra Pradesh. The student teacher shall develop period lesson plan and teach the lessons for 30 minutes' duration. The finallessons will be evaluated for 20 marks by the Internal as well as External Examiners appointed by the DGE inconsultation with the Director, SCERT and Andhra Pradesh. While awarding marks in the Final Lesson, the following criteria may be followed.

30 minutes' duration will be given to each student teacher for teaching the final lesson, with the following principles (criteria) for awarding marks.

Preparation	2marks
Motivation	2marks
Presentation	5marks
TLM	3marks
StudentsPaticipation	3Marks
Evaluation	3marks
Impression	1 marks
Appearance	1 mark
Total	20 Mark

CHAPTER - 3 SEMESTER SYSTEM & ALMANAC FOR 2020-22BATCH

3.1 INTRODUCTION OF SEMESTER SYSTEM IN D.EI.EdCOURSE

Semester system is a very proactive system as it engages students and faculty throughout the year in the academic activity. With the introduction of Semester system, the quantum of work and syllabus in a year is prioritized and gets distributed in the Semesters. This is advantageous to both the teacher and the tauht, as the burden on teaching and learning components getslightened.

3.2 OBJECTIVES OF OF THE SEMESTERSYSTEM

- To broaden the outlook of the students and instill a sense of confidence and responsibility in them.
- Tocreategreaterinteractionamongstudentsandfacultythroughouttheyear.
- To track the developmental stages of the student's progress (graph) in terms of their achievement in the semestersystem.
- To focus on core areas of teaher training for better assimilation of new ideas in the education field.
- Toevaluatethestudentteachrsconsistentlyforenhancingtheirknowledgefield.
- Tomakethetraineesengaged in Teachinglearning process throught the year.

3.3 SEMESTER-WISEBREAK-UPOFMAXIMUMMARKS FOREVALUATION

The performance of a student teacher is assessed over period of 2 years in 4 semesters for a maximum of 2800 marks that includes Theory for 1000 marks and Practicum for 1800 marks. Thus, the weightage given to Practicum is almost double as the entire course is skill-oriented and aims at training the student teachers to become

efficient teachers. The weightage of Marks in the D.El.Ed.course is presented in the following table.

Semester-wise break up of Max. Marks

Semester No	Theory (Max. Marks)	Practicum (Max. Marks)	Total (Max.Marks)
I	300	400	700
II	200	500	700
III	300	400	700
IV	200	500	700
Total Marks	1000	1800	2800

3.4 <u>ALMANAC FOR 2020-22BATCH</u>

Semester – I

Duration : 31.12.2020 to 08.04.2021

Workingdays : 99

Examination : 1stweek of April 2021

Semester – II

Duration : 09-04-2021to15-05-2021 and

01-07-2021 to 19-09-2021

Workingdays : 99

Examination : $2^{nd} \& 3^{rd}$ week of September 2021.

Summer Holidays : 16-05-2021 to 30-06-2021

Semester - III

Duration : 20.09.2021 to 11.02.2022

Workingdays : 100

Examination : 2nd week of February2022

Semester – IV

Duration : 14- 02-2022to23-04-2022 &

13.06.2022 to 06.08.2022

Workingdays : 100

Examination : 1st week of August 2022.

CHAPTER-4

SEMESTER-WISEACTIVITIES

Inthischapter, the details about the structure, content and various activites of each of the four Semesters is presented for better understanding of the course.

4.1 SEMISTER –I

Semester-I begins on 31^{st} December 2020, this year due to delay in admissions in the course and it ends on 08^{th} April 221 with a total 99 working days.

4.1.1 COURSESTRUCTURE

Sl. No.	Sl. No. Activity					
1	Theory classes / instruction	74				
2	Institutional Observation Programme (IOP)	10				
3	Mid-term (Summative) Examination (daily two papers)	03				
4	Workshops / seminars / Extension Lectures	04				
5	Final Theory Examinations	06

4.1.3 INSTRUCTIONAL ACTIVITIES (Allocation of Days for differentActivities)

The first instructional day for Semester–I is on31.12.2020 and thelast instructional day is on 08th April 2021

Sl. No.	Month & Year	Holidays	No.of Working Days	Major Activities
1	31 st December 2020 is the First Instructional Day		1	 Orientation about the course, Syllabus andSubjects
2	January, 2021	Sundays Second Saturday Pongal Holidays Republic Day	(SOP) 31	 Theoryclasses Preparation for Institutional Observation Programme(IOP) Observation of Institutional Observation Programme (10days) Projectwork Seminar/workshopsontowardsself understanding—1 Presentation of Assignments.
3	February 2021	Sundays Second Saturday Pongal	28 (SOP)	 Theoryclasses Projectwork Presentation of Assignment Drawing / Painting / Dance / Singing Competitions (Mandatory Summative Assessment
4	March 2021	Sundays Second Saturday Mahasivarathri	31 (SOP)	 Theoryclasses Projectwork Workshop on preparation of TLM Seminar / workshops on towardsself understanding - 1 Project work
5	April 2021	Sunday	08	Final Examinations
Total V	Working Days	,	99	

Institutional Observation Programme (IOP)

The Institutional Observation Programme (IOP) is a "hands on experience programme" through which the teacher trainee will be exposed to different schooling systems to familiarize themselves with the existing scenario of the school activities.

The student teacher shall visit the school with a check list for observation and make a note of the details in their observation note books. Later, the student teachers have to write in the detailed record.

DuringtheIOP, the studentteachers are instructed to observe the classes taught by teach ers in the primary schools as a part of pre-practice teaching. This will help them to get acquainted with the teaching in primary schools.

A detailed procedure on the observation of the schools along with the suggested Checklists is appended in the Annexure

4.1.4 EVALUATIONPROCEDURES

4.1.4.1 InternalEvaluation

The following activities are to be taken into consideration for internal evaluation in the Semester

- a) Institutional Observation Programme(IOP). b)Assignments Subjectspecific
- b) Field based Projects (FBP) Subjectspecific. C) Mid-term (Summative) Examination Subject specific.

${\bf Allot ment of marks for different activities mentioned above under Internal\ Evaluation}$

Teaching Practice

In semester-II, the student teachers are sent for Teaching Practice for 20 days in twospellsfor10dayseach. The student teachers who are sent for a particular school are to be divided into two Groups and the less sons may be allocated to them before hand for teaching in the school.

The 'work allotment' for Teaching Practice of Methodology and Value added Papers for student teachers who are sent to a particular school in two groups for 20 days in two spells is illustrated below.

For example, if 8 student teachers, say A, B, C, D, E, F, G and H, are sent for TPs to a school, half of them will comprise Group-I (A, B, C & D) and the other half comprises Group-II (E, F, G & H). Thus, the following Table illustrates the work allotment.

Level/ Spell	Early Primary Level (5days)			mary Level ays)	Total No. of periods(days) to betaught at eachlevel	Total No. of Days
	Group-1 Group-2					
	A-Telugu &(Art&Clt r- 2days)	B- Maths&(Y PH- 2days)	E- Telugu&(A rt&Cltr- 3days)	F- Maths&(YPH- 3days)	05	
Spell - I	C- Maths&(Y PH- 2days)	D- Telugu&(A rt&Cltr- 2days)	G- Maths&(Y PH- 3days)	H- Telugu&(A rt&Cltr- 3days)		10 days
	A- Maths&(Y PH- 2days)	B- Telugu&(A rt&Cltr- 2days)	E- Telugu&(A rt&Cltr- 3days)	F- Telugu&(Art &Cltr)	05	
	C- Telugu&(A rt&Cltr- 2days)	D- Maths&(Y PH- 2days)	G- Telugu&(A rt&Cltr- 3days)	H- Maths&(Y PH- 3days)		
	Gro	oup-2	Group-1			
Spell - II	E- Telugu&(A rt&Cltr- 3days)	F- Maths&(YPH- 3days)	A-Telugu &(Art&Clt r- 2days)	B- Maths&(Y PH- 2days)	05	10 days

3days)	&Cltr)	PH-	2days)	05	
	&CIII)	2days)			
G-Telugu&	H-	C-Telugu&	D-		
(Art&Cltr-	Maths&(Y	(Art&Cltr-	Maths&(Y		
3days)	PH-	2days)	PH-		
	3days)		2days)		

The relevant Observation Proforma and period plans formats are appended in the Annexures.

Internship

The student teachers are sent for Internship to schools for 16 days. They should teach the lessons related to one Unit for the Early Primary classes (1&2) in one subject only(eitherTeluguorMathematics). Similarly, they should teach the lessons related one Unit for the 'Middle Primary' classes (3,4&5) in the other subject. The student teachers are to conduct formative and summative tests during this period and record the marks/grades for analysis.

The student teachers are supposed to teach 2 periods a day for 10 days each for TeluguandMathematics.Outof16days,tendaysareto beusedforteachingand2days maybeusedforconductingofTestsand4daysforremedialTeaching.

		No. of Periods			Total No	
Category of Classes	Subjects	Mono Group	Multi Group	Total	Total No. of Days	
Early Primary Classes (1 & 2)	Telugu/Maths	07	03	10	10 days	
Middle Primary classes (3,4 & 5)	Telugu/Maths	07	03	10		

Note: During internship each trainee has to teach 10 lessons in Telugu (Either for primaryormiddleprimary)and10lessonsinMathematics(Eitherlowerprimary or middle primary). 50% of the trainees have to take up lower primary and remaining50% trainees need to take up middleprimary is allotted school.

4.2.4.2 EXTERNAL EVALUATION(EXAMINATION)

4.2.4.2.1 THEORYEXAMINATION

External Theory examination is conducted for 50 marks for 2½ hrs. duration at the end of Semester in the following 6 subjects/papers only by the Director for Govt. Examinations (DGE), Andhra Pradesh

Paper code	Title of the Paper	Maximum Marks
	Pedagogy of Mother Tongue/First Language at	50
201	Primary Level– II	30
202	Pedagogy of Mathematics at Primary Level– II	50
203	Pedagogy across Curriculum & ICT Integration - II	50
204	Childhood & the Development of the child-II	50
	Total	200

Mid-term (Summative) Examination

A mid-tem (Summative) Examination for 50 marks for each paper in each Semester(inthespecifiedPapers/Subjects)istobeconductedbythefacultyonthePublic Examination pattern. The Mid-term examination marks are to be reduced to 10 for internal assessment.

4.2.4.2.2 FINAL PRACTICALEXAMINATION

Final/ExternalpracticalExaminationisconductedfor20markseachinTelugu andMathematicsMethodologysubjectsbytheDirectorofGovt.Examinations(DGE), Andhra Pradesh at the end of the Semester –II.

CHAPTER - 5 SYLLABUS & CALENDAR OF ACTIVITIES FOR DIFFERENT SUBJECTS / PAPERS OF STUDY

In the following papers, the division of syllabus month wise, semester wise and period wise is presented

5.1 SEMESTER –I

104 - CHILDHOOD, CHILD DEVELOPMENTAND LEARNING-I

Sl.No.	Month	Unit	Content
1	Jan-2021	I	Unit-1 Childhood
			• Constructs of childhood: Commonalities and diversities within the notion of childhood and how multiple childhoods are constructed in the Indian Context; Constructs of childhood in the context globalization; Child labour, Child abuse; childhood in the context of poverty.
			• Home & Socialization: Social, economic and cultural differences in socialization; Parenting, family and adult-child relationships, child rearing practices. Schooling as a context of socialization: peer influences, school culture, relationshipswithteachers,teacherexpectationsand school achievement; being out of school, over-age learner.
2	Feb-2021	1&2	 Gathering data about children from different contexts using different methods, techniques and approaches: naturalistic observations; interviews; reflective journals about children; anecdotalrecords and narratives; Experimental method, Questionnaire, Case Study, RatingScales, Longitudinal and Cross-Cultural Approaches.
			Unit-2: Perspectives in Development
			• Introduction to Development: Concept of Growth, Development and Maturation; Development as multidimensional and plural; Development as continuing through the life span; ways in which development is continuous /discontinuous; Heredity & Environment (socio-cultural contexts) influencing development. Developmental Milestones & Hazards. Physical -Motor Development; Growth and maturation.
			• Schooling as a context of socialization: peer influences, school culture, relationships with teachers, teacher expectations and school achievement; being out of school, over-agelearner.

March-2021	2	 Social Development: Role of family, peers, school, mass media and culture. Role of competition, cooperation, discipline, reward and punishmentand conflict, aggression and bullying in Social Development. Concept and processes of socialization, Social, economic and cultural differences in socialization, Relationships with peers: friendships and gender; competition and cooperation, competition and conflict; aggression and bullying during childhood. Emotional Development: Basic understanding of emotions and their development, Emotional maturity, Role of family and school in Emotional Development. Language development: Development of speech and language, Perspectives in Language Development – Skinner, Bandura and Chomsky. Moral Development: Perspective of Kohlberg; cultural variations in moralreasoning.
April-2021	2	Play and development: Meaning of Play and its functions: linkages with the physical, social, emotional, cognitive, language, moral and motor development of children; Types and kinds of play; Games and group dynamics: rules of games and how children learn to negotiate differences and resolve conflict. A sense of self:self-description,
		• self-recognition, self-concept; self-esteem; social comparison; internalization and self-control
		Culture and GenderDevelopment

Task 1:

Student teachers collate about ten newspaper articles that involve parenting and childhood, analyze these and hold discussions.

Task 2:

Hands-on Experience of Methods of Studying Children and Varying Contexts in Childhood.

Thestudentteacherscanidentifyanychildtounderstand5-14 yearoldchildrenindiverse contexts and use case profile approach* to study him/ her. The teacher educator could organize the class in such a manner that different students' profile children from varied socio-economicbackgrounds. This would allow for a widerange of data which could be subsequently analyzed in groups. The task could be helpful in understanding and supporting developmental and educational needs of the marginalized learners; first-

generationschoolgoers, streetchildren and children living in slums; children with special needs.

*Case Profile Approach may include observations and interview as tools to study socioculturalcontexts, child-rearing practices, expectations from school, dreams and fantasies of the child.

Task 3:

Students watch a movie to be identified collectively by teacher educators and student teachers, and reflect on portrayal of children in the same (for instance Salaam Bombay, BlueUmbrella, TareZameenParorotherregionallanguagemovies). Discussion could be

heldarounddepictionofchildrenfromvaryingbackgrounds, constructsofchildhood.

Task 4:

Studentteachersconductinterviews with 4 to 5 parents from different socio-cultural and economic background with regard to the child rearing practices and parenting styles and present their reports inclass

Task 5:

Student teachers can take data from an elementary school with regard to the growth of height and weight of children and analyze this data and present their report.

Task 6:

The student teachers ask four children in the age group 4-7 years to draw on different themes they choose. The children are then encouraged to talk about their drawing. The students try and understand what the drawing communicates by talking to the child and looking for aspects of symbolic thought as expressed in the drawing. Also, the student-teacherarrivesatthepatternsthatemergeacrossthevariousdrawingsthatchildrenhave made. Studentteachers could also organize other such simple activities for children. They conduct these activities with children and maintain records of children's responses.

Task 7:

Student teachers observe children at play and maintain records. Observations can be carriedoutinplaygroundsintheneighborhoodorschools. Studentteachers could identify different games that children play; Individual and group behaviour in play; friendships and social relationships. The analysis could include the following aspects: motor skills, language used during play, group structure and interactions, arriving at rules and following them, gender behaviour, patterns of negotiation and resolving conflict, folk songsandgames, popular culture. This assignment is to be followed by post-assignment discussions during contact hours to arrive at linkages between play social, emotional, cognitive, language and motor development of children.

Task 8:

Student teachers identify a movie or a cartoon that is popular among children. They construct an interview schedule (to interview children) and observation checklist to look at the finer nuances of the movie or cartoon (what attracts children to the same) and critically analyze the varying aspects. Other methods of looking at TV viewing habits, child's ability to distinguish fantasy from reality could also be explored by the student teachers.

Task 9:

Studentteachersidentifyavideogamethatispopularamongchildren. Theyconstructan interviewscheduleand observationchecklistto "Understandaggressioninavideogame thatispopularamongchildrenandalsocriticallylookataspectsofthegameitself."

Task 10:

Student teacher can take the data with regard to habit interference, hearing styles, memory span of the students.

105 SOCIETY, EDUCATION AND CURRICULUM

Sl. No.	Month	Unit	Content
1	Jan-2021	1	Unit – 1: Aims and Purposes of Education
			• Relationship between schooling and education, and exploring various educative processes in human societies 1 Aims and values of education: Constitutional values; NPE 1986; NCF 2005, SCF 2011.
			• Understanding basic assumption about human nature, society, learning and aims of education.
			• Exploring and enquiring in to the nature in to the needs of education in human society.
			• Schooling and education as visualized by different Western and Indian thinkers: Swami Vivekananda, M.K.Gandhi, Rabindranath Tagore, J. Krishnamurthi, GijubhaiBhadekha, JyothibhaPhule, PanditMadan Mohan Malaviya, Sri Aurobindo and The Mother, Sri SarvepalliRadha Krishnan, SantKabir, John Dewey, Frobel, Montessori,
			Prof.J.P.Naik, Prof. D.S.Kothari.
3	Feb-2021	2	Unit – 2: Education, Politics and State
			• Political nature of education: Power and Ideologies and how they structure aims ofeducation
			• Role of State in education: Creating institutions; Curriculum development and textbooks; Pedagogic and assessment practices; Culture of schooling; Preparing and recruiting teachers. Teacher's statusin society: Public perception; Systemic issues – bureaucratization.
			Roleofcommunityandcivilsocietyorganizationsin education: A criticalappraisal.
			• Unit – 3: Knowledge and Understanding
			Construction of knowledge, Knowledge Vs Information
			• Concepts of Belief, Information, Knowledge and Understanding: Knowledge as distinct from information; Knowledge as construction of experience; Methods of enquiry. Bodies of knowledge: different kinds of knowledge and their validation processes (truth criteria).
	Mar-2021	3	Knowledgeandpower:Dominanceofonekindover another; Textual knowledge Vs experiential knowledge.
			 Children's construction of knowledge: What and How; Alternativeframeworksofchildren'sthinking. Forum of knowledge and problem solving –Maths, Science, Social Science, History, Language, Philosophy etc., Role of the teacher.

4	April- 2021	4	 Unit – 4: Curriculum and Learning Curriculum, syllabus andtextbooks Processes and criteria for curriculum selection and construction. Representation, inclusion and exclusion of knowledge of different social groups in curriculum andtextbooks. Hidden curriculum: School culture, Schooling processes; Beliefs and Practices ofteachers. Curriculum, Pedagogy and Assessment of Children: Connections among knowledge, curriculum, textbooks and learners; Inclusive learner friendly
			 classrooms; Continuous assessment for learning Designing and implementing curricula for a multicultural, multilingual society: Realising the aims of education - Meeting diverse needs through partnerships with communities; Ensuring learning for ALL, Organization of curricular experiences. Choosing teaching learning methods, Teaching Learning Materials andassessment. Revision of hard concepts in thesyllabus.

Task 1:

What does it mean to be 'educated' in contemporary India?

Presenting multiple perspectives on the expectations from education in India based on interviews and some research, and based on their own reflections.

Task2:

Educational thinkers who have had the most impact on me: Presentations with 'first person' accounts by student teachers, followed by questions

Task3:

What ought to be the aims of education in India today?

Debate and discussions, to generate a range of orientations to education in India, representing different ideologies and emphases

Task4:

Visiting different types of schools in the neighbourhood schools (of different managements with different ideological backgrounds): Student teachers to study their aims, school culture, classroom practices. To prepare and present a report.

Task 5:

Comparing curricula and textbooks of different states governments and private organizations: Assumptions on knowledge and learning; learning experiences provided; contextual relevance of examples, analogies and so on; assessment practices.

106 - EARLY CHILDHOOD CARE AND EDUCATION

Sl. No.	Month	Unit	Content
1	Jan-2021	1	Unit – 1: Definition, Nature and Significance of Early Childhood Care and Education
			 The nature and philosophy of ECCE – The ideas of educational philosophers and thinkerson ECCE: John Deewey, Tagore, Russeau, Frobel, Montessori, Gandhi. Definition and objectives of holistic ECCE curriculum – Significance of early years. Significance of ECCE as critical period for lifelong learning and development. Rationale for extending ECCE to 8 years for smooth transition. Early learning challenges in schools and concept of school readiness. Critical appraisal of current practices in ECCE centres of government, NGOs, private managements. Children needs: Freedom (expression, experimentation, encouragement, challenge); Happiness (support, security and safety, opportunity and guidance) Adoptability (adopting to the number of collective by cooperation, listening, patience, sharing and empathy) Health well being and health habit, nutrition.
2	Feb-2021	2	 Unit – 2: Principles and Methods of Developmentally appropriate ECCE Curriculum How children learn: Stage wise distinctions from early to middle to latechildhoods, Nature of the child needs: Freedom, Expression, Experimentation, Encouragement, Challenges. Importance of Play and Active learning methods for early yearslearning. Guiding principles: Play and art as the basis of learning—Primaryofexperiencingnotexpertising. Domains and activities for holistic development of children – Motor, Sensory, Cognitive, Language, Emotional, Social and Personaldomains.
4	March-2021	2&3	 Emergent literacy and numeracy in earlyyears. Components of ECCE and approach toteaching learning (education, care, nutrition, habit formation, custodian)

5	April-2021	3&4	Unit – 4: Curriculum for 3 to 6 Years of Age Group Children in ECCE
			Language and communication.
			Mathematicalconcepts.
			Scientificthinking.
			Early learning and development standards.
			Observing and recording children's progress.
			Reporting children's progress.
			Ensuring home school linkage.
			Revision
			Final Practical Examinations
			Revision

- Parenting techniques, child rearingpractices

102 - UNDERSTANDING MATHEMATICS AND EARLY MATHEMATICS EDUCATION AT PRIMARY LEVEL-I

Sl. No.	Month	Unit	Content
1	January-2021	1	Unit – 1: Introduction to Mathematics
			 What is Mathematics and where and in which form it found inlife?
			• What is the need and importance of Mathematics in daily life? How it is different from school Maths?
			Why we teach Mathematics?
			• Aspects of Mathematics: Concept, process, symbol and language (1, 2 classes and 3 to 5 classes separately)
			Mathematisation
2	Feb-2021	2	Unit – 2: Mathematics: Teaching Principles and Teaching Methods
			• Nature of the learner. What he knows and how? Where?
			• Understanding the learners – Methods and procedures oflearning
			Piaget schemat of cognition in Mathematicsin
			different stages, Vigotsky social learning and its implications learning
			Mathematics.
			 Understanding the learning processes – Natural context, Induction, Deduction
			Learning and teaching errors and how to overcome?
			Methods of Mathematics learning and teaching – Specifications and
3	March-2021	3	general theories of Mathematics – Analysis, synthesis
3	March-2021	3	Unit-3: Counting, Numbers and its Operations • Pre-numberconcepts
			-
			 Understanding numbers and notation Digit and representation of numbers
			 Counting and place value (with differentbases)
			 Concept of fractions and itspresentation
			Concept of fractions and respresentation
4	April-2021	3	Mathematical operations of numbers(N.W.Q.)
			Learning material forabove

- Observe 3-years old child and write a report on what Mathematical abilities child possess and how theyacquire?
- Observethechildrenwhiletheyareplayingandwriteareportonhowdotheyframerulesofa game or a play? What is the implication in Mathematicallearning?
- Analyse the textbook of any one of the Primary classes and write a report on how these new textbooksarechildfriendlyandhelpsthechildrentoconstructthe Mathematicalconcepts?
- Develop a Mathematical resource kit with locally available materials for effective transaction of Mathematical concepts at Primary Level.
- Develop questions for each Academic Standard at PrimaryLevel.
- ObservethechildrennotebooksofMathematicsor answerscriptsofMathematics.Identifythe mistakes committed by the children and write a report on what are the reasons for these and how toovercome?
- Observe the Mathematical teaching learning process at Primary Level. Record the language used by the teacher and write a critical report onit.
- Analyse the Mathematics textbooks of Primary classes with identifying some concepts and procedures with problems. Develop some more activities and Teaching Learning Material (TLM) to understand those concepts and write a critical report onit.
- Identify two (2) concepts in each area of Mathematics and construct Academic Standards on those concepts. Write a critical report onit.
- Analyseany5problemsdoneby10children.Identifystrengthsandweaknessesofconceptson which students performed. Identify which concepts are formed and which are not formed. Write a critical report on it withreasons.
- Interview 10 children on 'Do this', 'Try this' and 'Think and discuss' exercises on a selected topic. Recordalltheanswers of the children on whether objectives are achieved or not. Write a report on it and suggest remedial activities with TLM if the objectives are notachieved.
- Identify any two (2) concepts and browse different websites to collect 10 activity sheets on the
 concepts. Conduct a test with the help of activity sheets and analyse the results. Prepare
 activities and TLM for remedialteaching.
- Identify five (5) verbal problems on a concept at Primary Level. Choose any other than textbook material from market. Ask any five (5) children to read and explain the solutions to the problems. Select other five students and ask them to read the textbook and explain the solutions to the problems. Conduct a group discussion on the doubts raised by the students. Prepare areport.
- Identifyabout20problemsonadditionandclassifythemoncriteriaofprocessing(aggregation and augmentation). Prepare strategies to teach these processes and write a report on your experiences.
- Identify about 20 problems on subtraction and classify them on criteria of processing (reduction, elimination, difference and counter addition). Prepare strategies to teach these processes and write a report on your experiences.
- Identify about 20 problems on multiplication and classify them on criteria of processing (adding in equal groups, increasing at the same rate, arrays and cross product). Prepare strategies to teach these processes and write a report on your experiences.
- Identify about 20 problems on division and classify them on criteria of processing (grouping and sharing). Prepare strategies to teach these processes and write a report on your experiences.

103 - PEDAGOGY ACROSS CURRICULUM AND ICT INTEGRATION -I

(Value Added and Co-curricular Paper)

			(value Added and Co-curricular Paper)
Sl. No.	Month	Unit	Content
1	Jan-2021	1	Unit-1:Pedogogy – Conceptions and Perspectives
			• Learning – Types of Learning - Concept, nature, child abilities before coming to school and its implications (funds ofknowledge).
			• Learner, learning, knowledge, curriculum, schooling: Inter-linkages and relationships; why and what of teaching learning.
			Critical examination of terminologies and notions associated with child-centered education such as child centered, activity based learning, joyful learning, CCE, IQ, merit.
			Critical understanding of various methods and approaches of teaching learning; facilitating learning; teacher as reflective practitioner, collaborative and
			cooperative learning.
			• Concerns of inclusive education: Gender, marginalized groups, children with special needs.
			Critical pedagogy concept, need and implications in teaching learning.
2	Feb-2021	2	Unit-2: Pedogogy, Resources and Practices
			• Reflections on school of thought and theories: GijuBhai, Summer Hill, Totochan, Makarenko, John Holt, Paulo Freire, Piaget, Bruner, Vygotsky.
			• Inclusive and exclusive practices (Designing inclusive learner friendly environment): Identifying and understanding socio-cultural, linguistic and biological diversity among children; Valuing diversityasaresource; Flexible planning formeeting diverse needs; Adapting a range of approaches and resources; Building relationships with parents and community.
			• Resources: Home (funds of knowledge); Community; Children's talk, play, work; Stories; Children's literature; School building and surroundings; Textbooks; Nature; Art; Local culture and heritage; Range of physical resources and objects; Digital resources; Films and mediaetc.
			Linking pre-school knowledge of the children with learning schoolsubjects. Classroom organization and management: Changing pedagogies and classroom management, Facilitating classroom for small group, large group and individuallearning;

3	Mar-2021	4	Unit-4: ICT (Information & Communication Technology).
			Concept of ICT (Information & Communication Technology).
			Computer hardware; Internet; Creating content in various formats like text documents, Presentations and spreadsheets; OERs; Hand-held devices; Netiquettes.
			Main features of ICT related policies - National Level and StateLevel.
			ICT based learning processes and resources: Creating learning environments, ICT supporting pedagogic practices; Educationalgames
			Exploration of ICT resources (appropriate hardware
			- CD/DVD, projectors, interactive boards, appropriate software - audio, video, multimedia, editing, web applications, internet, animations, games and simulations etc. in computer lab.); Evaluation and adoption of available ICT resources
4	April-2021	4	Pedagogical analysis to determine content (what) and methods (how) and mapping it with suitable ICT, Finding alternative methods and ICTs; Using ICT tools, techniques and resources to create scaffolding; Classroom organization for ICT integratedlessons.
			Snippets Cyber law and security: Freewares.

Taskl:

An alyse school text books to construct and discuss pedagogic elements. Presentation of analysis

Task2:

Develop concept maps to design subject based and thematic based curriculum materials Task3:

Observe, document and interpret class room discourses. Prepare and present are port.

Task4:

Investigate perspectives in children's literatures and other teaching learning resources. Prepare and present a report.

Task 5:

- i. Plan and conduct one lesson in each of the five school subjects integrating relevantandsuitableinteractivemulti-mediaOERsofyourchoicefromWWW using available suitable ICTs during the second term of school internship. Receivethefeedbackfromyourmentorandmodifysubsequentlessons.
- ii. FormaGooglegroupofminimumof5friendsfromyourclasstoworkwithyou on a project to be presented using PPT in your D. El. Ed. class. Inform themby e mail, objective of this collaborative work, to be shared on line by all those involved. Ask each one to prepare five slides with at least one link to audio/videomaterial
- iii. Select at least 3 multimedia OERs and integrate them in the lesson plan selectingatopic of your choice from your most favorite subject in the school.
- iv. Using hot potatoes or any suitable available ICT, prepare a test with twenty different types of questions including multiple choice items on a topic of your choice. Administer it on your class and prepare the result sheet using spreadsheet.
- v. Usinginternet, find and suggest at least five live links, providing information on a topic

of your choice, for the children of Standard VII, to refer for self-study. Askthemtoprepareawriteupofapageusingwordprocessorsoftware-office word.

107 – TOWARDS UNDERSTANDING SELF – I (Self Development Paper)

Sl. No.	Month	Unit	Content
1	Jan-2021	1-A	Unit – 1A: On-going Activities
			 Journal writing by student teachers to reflect on significant experiences and periodically process their observations and thoughts on lifesituations, with comments being noted by a designated teacher educator as mentor.
		1-B	1B: Suggested Themes for Seminars and Workshops
		1 1	Awareness of self, Understandingoneself
		2.4	• Unit – 2A: On-going Activities
		2-A	 Journal writing by student teachers to reflect on significant experiences and periodically process their observations and thoughts on life situations, with comments being noted by a designated teacher educator as mentor.
			2B: Suggested Themes for Seminars and Workshops
			Aims and purposes of life
			Unit-3A: On-going Activities
			 Engaging with a range of literary texts such as short stories, poetry, novels, biographies, drama, expository texts. Opportunities must be provided to student teachers to share their interpretations.
			3B: Suggested Themes for Seminars and Workshops
			Mindfulness
2	Feb-2021	4-A	Unit-4A: On-going Activities
			 Engaging with a range of literary texts such as short stories, poetry, novels, biographies, drama, expository texts. Opportunities must be provided tostudentteacherstosharetheirinterpretations.
		4-B	4B: Suggested Themes for Seminars and Workshops
		4-D	Becomingsensitive
		5-A	Unit-5A: On-going Activities
		J-A	Reading and Reflecting on texts has to be facilitated by all teacher educators through-out the programme. Student teachers have to be guided to critically read, discuss and reflect on theessentialreadingslistedinallthecourses.
		5-B	5B: Suggested Themes for Seminars and Workshops
			Accepting and celebrating differences
			Unit-6A: On-going Activities
		6-A	Reading and Reflecting on texts has to be facilitated by all teacher educators through-out the programme. Student teachers have to be guided to critically read, discuss and reflect on theessentialreadingslistedinallthecourses.
		6-B	6B: Suggested Themes for Seminars and Workshops
		0-B	Harmony inrelationships. Peace andcoexistence

3	March-2021	7-A	Unit-7A: On-going Activities		
			• Carefully framed writing tasks towards the beginning and end of each year, which enable student teachers to express and reflect, in stages, on their prior life journeys, current assimilation of experiences and questions, as wellas evolving perspective on education.		
		7-B	7B: Suggested Themes for Seminars and Workshops		
			Conflictresolution		
			Stressmanagement		
4	April-2021	9-A	Unit-9A: On-going Activities		
			 Change in assumptions and beliefs in the course of pre-service training in terms of nature of the child, nature of the learning, teaching, school, 		
			textbooks, assessment etc.		
			SuggestedThemesforSeminarsandWorkshops		
			Writing year plans and lessonplans		
			Development of questionpapers		

An on-going strand during the two year course, to be coordinated and shared by the faculty, would include

- Journal writing by student teachers to reflect on significant experiences and periodically process their observations and thoughts on life situations, with commentsbeingnotedbyadesignatedteachereducatorasmentor.
- Engaging with a range of literary texts such as short stories, poetry, novels, biographies, drama, expository texts. Opportunities must be provided to student teachers to share their interpretations.
- Reading and Reflecting on texts has to be facilitated by all teacher educators through-out the programme. Student teachers have to be guided to critically read, discussand reflect on the essential reading slisted in all the courses.
- Carefully framed writing tasks towards the beginning and end of each year, which enable student teachers to express and reflect, in stages, on their prior life journeys, current assimilation of experiences and questions, as well as evolving perspective oneducation.
- Studentteachersneedguidanceinquestioningtheirbeliefs,understandingand reflecting on their own processes of transformation as professionals and individuals. Teacher educators need to be sensitive and supportive in this process and mutuallylearn.
- Change in assumptions and beliefs in the course of pre-service training in termsofnature of the child, nature of the learning, teaching, school, textbooks, assessmentetc.

Part 2: Suggested Themes for Seminars and Workshops

- Awareness of self, Understandingoneself
- Aims and purposes of life

- Mindfulness
- Becomingsensitive
- Accepting and celebrating differences
- Harmony inrelationships
- Peace and coexistence
- Conflictresolution
- Stressmanagement
- Nurturinglifeskillsamongchildren
- Writingyearplansandlessonplans
- Development of questionpapers

Note: Out of six (6) workshops, a 2-day workshop may be organized for developing year plan, lesson plan and period plans. Another workshop for developing question papers is the mandatory. The remaining four (4) workshops may be organized for given above suggested themes.

108 - PROFICIENCY IN ENGLISH LANGUAGE (Self Development Paper)

Sl. No.	Month	Unit	Content
1	Jan-2021	1&2	Unit- 1: Introduction
			Introduction
			English aroundus
			English as a global language – Language of opportunities
			Constitutional provision; English as an Associate OfficialLanguage
			* Workshop /Seminar
			 Importance of language proficiency in classroom transaction. Different avenues for development of language proficiency.
			Need and importance of English language proficiency
			to the elementary teacher.
			* Workshop / Seminar
			Unit-2: Understanding Language - Listening to and Producing Oral Discourses
			IntroductionListening with comprehension
			Analysing discourse features in Listening and Speaking
			Analyzing the suprasegmental features
			Issues related to oral discourses
			Making oral presentations and constructing different oral
			discourses Opportunities to Use Language in context
			Oral discourse and their features
			Activities:
			☐ Theme-based interaction
			☐ Listening to oral discourses (speeches, discussions, songs, news reports, interviews, announcements, ads, etc.)
			Producing oral discourses (speeches, discussions, songs, news reports,
			interviews, announcements, ads, etc.)
			☐ Giving and eliciting feedback for refining oral discourses in terms of features
			of discourses and supra-segmental features. Using classroom theatre (drama, choreography) as a pedagogical tool
2	Feb-2021	3	
	100 2021		Unit-3: Critical Reading
			Introduction
			Reading forcomprehension
			Extrapolating the texts through making inferences, analysing, reflecting
			 understanding the theoretical postulates ofcritical reading
			Reading different types of texts such as descriptions, conversations,
			narratives, biographical sketches, plays, essays, poems, screenplays,
			letters, reports, news reports, feature articles, reviews, notices, ads
			/matrimonial, brochures, etc. and identifying theirfeatures.
			Understanding the process of criticalreading
			Indicators for assessingreading
			• Activities:
			➤ Identifying the features of various discourses they haveread
			 Interpretingtables,graphs,diagrams,pictures,etc. Reviewing anybook/article
			 Using reading as a tool for reference skills i.e., use of dictionary, encyclopedia andinternet
		1	encyclopedia andiniernet

	1	
		Unit-4: Writing and Creative Writing
		IntroductionWriting for specific purposes and specific audience and understand writing
		as a process
		Experience the classroom process of writing (individual, collaborative,
		editing)
		Writing texts such as descriptions, conversations, narratives, biographical
		sketches, plays, essays, poems, screenplays, letters, reports, news reports,
		feature articles, reviews, notices, ads/ matrimonial, brochures etc. and identifying their features
		Recognizing errors as a part of learning process
		• Editing the written texts in terms of discourse features, syntax, morphology
		and writing conventions
		 Indicators for assessing the written discourses
		• Activities:
		Brainstorming on the theme and the type of text, the audience, etc.
		Concept mapping on the content and organization of the textWriting individually and refining through collaboration
		Reading related texts for refinement of the written work in terms of
		discourse features and theme
		• Editing texts written by oneself and others in terms of discourse features,
		syntax, morphology and conventions of writing
3	March-2021	Unit-5: Vocabulary and Grammar in Context
		• Introduction
		What is grammar; how we learn grammar in mothertongue.
		 Problems with traditional prescriptivegrammars. Classificationofwords(closedwordclassesand open word classes).
		Lexical, phrasal and clausalcategories.
		Elements of a sentence (nuclear and optional).
		Classification of clauses based on structure, function and finiteness.
		 Auxiliary system (Tense, Modals, Perfective and Progressive Aspects, Passive).
		 Syntactic devices (coordination, subordination, complementation, relativisation, passivisation, embedding, agreement)
		• Word formation (prefix, suffix, compounding)
		 Synonyms, antonyms, homophones, homographs, homonyms, phrasal verbs, idioms
		Activities:
		Readingpassagesandanalyzingthedistribution of linguisticelements.
		Classification of words in a givensentences.
		Making generalizations on syntactic and morphological properties.
		Checking the generalizations in the light of new passages.

			Writing discourses and editing them individually and also through collaboration, feedback.
4	April-2021	5	> Critical reading of specific areas of grammar as discussed in a few popular grammar books and reaching atconclusions.
			Framing questions for different types of texts for reading comprehension/interaction.

- Theme-based interaction
- Listening to oral discourses (speeches, discussions, songs, news reports, interviews, announcements, ads,etc.)
- Producingoraldiscourses(speeches, discussions, songs, newsreports, interviews, announcements, ads, etc.)
- Giving and eliciting feedback for refining oral discourses in terms of features of discourses and supra-segmentalfeatures.
- Using classroom theatre (drama, choreography) as a pedagogicaltool
- Identifying the features of various discourses they have read
- Interpreting tables, graphs, diagrams, pictures, etc.
- Reviewing anybook/article
- Usingreadingasatoolforreferenceskillsi.e.useofdictionary,encyclopediaand internet
- Brainstorming on the theme and the type of text, the audience, etc.
- Concept mapping on the content and organization of thetext
- Writing individually and refining throughcollaboration
- Reading related texts for refinement of the written work in terms of discourse features andtheme
- Editing texts written by oneself and others in terms of discourse features, syntax, morphology and conventions of writing
- Reading passages and analyzing the distribution of linguisticelements.
- Classification of words in a givensentences.
- Making generalizations on syntactic and morphological properties.
- Checking the generalizations in the light of newpassages.
- Writing discourses and editing them individually and also through collaboration, feedback.
- Critical reading of specific areas of grammar as discussed in a few popular grammar books and reaching at conclusions.
- Framing questions for different types of texts for reading comprehension/ interaction.

5.2 SEMESTER -II

204 - CHILDHOOD, CHILD DEVELOPMENTAND LEARNING-II

Sl. No.	Month	Unit	Content
1	April-2021	3	Unit-3: Cognition and Cognitive Development
			Perception, Conception, Thinking, Reasoning, Meta-cognition, Creativity, Intelligence – Multiple intelligences, emotional quotient andmanagement ofemotions.
			CognitiveDevelopment:SocialContexts;Individual differences in the context oflearningPerspectives on Cognitive Development – Piaget and Vygotsky.
			Facilitating concept formation: Building on children's existing ideas, making connections, meaning making, relationships, big ideas; Using graphic organizers and concept maps; Experiential learning
2	May-2021	4	Unit-4: Learning
			Contexts of learning: Home, School, Environment
			• Factors influencing learning: Maturation, Emotions, Learning environment, Motivation, Interests, Aptitude, Attitude, Memory and Forgetting, Personality.
3	July-2021	4	Perspectives of learning and their implications for classroom teaching: Brief introduction to current theories of learning; Role of repetition &practice, GuidedInquiry,Integratedprojects,Collaborative& Cooperative learning – diverse resources for learning, Group work, Classroomdiscussions,
			Learner autonomy, Role of teacher as facilitator
			Learning disabilities; Children withSpecial
			• Needs (disabilities): Importance of early intervention, IEP, Differentiatedlearning.
4	Aug-2021	4	Creating inclusive learner friendly environment: Importance, Need for multiple resources, Ways and means of adapting to diverse needs, Flexible planning, Classroom management, Inclusive Schools.
5	Sep-2021		• Revision

Task 1:

Student teachers collate about ten newspaper articles that involve parenting and childhood, analyze these and hold discussions.

Task 2:

Hands-on Experience of Methods of Studying Children and Varying Contexts in Childhood.

The student teachers can identify any child to understand 5-14 year old children in diverse contexts and use case profile approach* to study him/ her. The teacher educator could organize the class in such a manner that different students' profile children from varied socio- economic backgrounds. This would allow for a wide range of data which could be subsequently analyzed in groups. The task could be helpful in understanding and supporting developmental and educational needs of the marginalized learners; first-generation school goers, street children and children living in slums; children with special needs.

*Case Profile Approach may include observations and interview as tools to study socio-cultural contexts, child-rearing practices, expectations from school, dreams and fantasies of the child.

Task 3:

Students watch a movie to be identified collectively by teacher educators and student teachers, and reflect on portrayal of children in the same (for instance Salaam Bombay, Blue Umbrella, Tare Zameen Par or other regional language movies). Discussion could be held around depiction of children from varying backgrounds, constructs of childhood.

Task 4:

Student teachers conduct interviews with 4 to 5 parents from different socio-cultural and economic background with regard to the child rearing practices and parenting styles and present their reports in class

Task 5:

Studentteachers cantakedatafromanelementaryschool withregardtothegrowthofheightandweightof children and analyze this data and present theirreport.

Task 6:

The student teachers ask four children in the age group 4-7 years to draw on different themes they choose. The children are then encouraged to talk about their drawing. The students try and understand what the drawing communicates by talking to the child and looking for aspects of symbolic thought as expressed in the drawing. Also, the student-teacher arrives at the patterns that emerge across the various drawings that children have made. Student teachers could also organize other such simple activities for children. They conduct these activities with children and maintain records of children's responses.

Task 7:

Student teachers observe children at play and maintain records. Observations can be carried out in playgrounds in the neighborhood or schools. Student teachers could identify different games that children play; Individual and group behaviour in play; friendships and social relationships. The analysis could include the following aspects: motor skills, language used during play, group structure and interactions, arriving at rules and following them, gender behaviour, patterns of negotiation and resolving conflict, folk songs and games, popular culture. This assignment is to be followed by post-assignment discussions during contact hours to arrive at linkages between play social, emotional, cognitive, language and motor development of children.

Task 8:

Student teachers identify a movie or a cartoon that is popular among children. They construct an interview schedule (to interview children) and observation checklist to look at the finer nuances of the movie or cartoon (what attracts children to the same) and critically analyze the varying aspects. Other methods of looking at TV viewing habits, child's ability to distinguish fantasy from reality could also be explored by the student teachers.

Task 9:

Student teachers identify a video game that is popular among children. They construct an interview schedule and observation checklist to "Understand aggression in a video game that is popular among children and also critically look at aspects of the game itself."

Task10:

Student teacher can take the data with regard to habit interference, hearing styles, memory span of the students.

203 - PEDAGOGY ACROSS CURRICULUM AND ICT INTEGRATION-II

(Value Added and Co-curricular Paper)

Sl.	Month	Unit	Content
1	April-2021	3	
	r		Unit-3: Concept and Process of Learning
			Behavior management – Alternate approaches; Time & resource management; Role of teacher in organizing and managing vibrantclassrooms.
			• Assessment: Purposes, Approaches and Tools; Continuous and Comprehensive assessment; Assessing tasks and children's work; Feedback and reporting; Portfolios.
			Process of children learning - How children learn?
			Basic ideas of behaviourlism and its implications
			• Concept formation - Meaning of concept, mental processes in concept formation, Bruner's and Piaget's modes of concept formation.
			Thinking and reasoning, linkage between thinking and learning
			• Cognition and learning - Constructivism, process of cognitive development - Its implications of teaching and learning.
2	May-2021	3	 Vygotskian theory - Concept of ZPD - Implications for teaching andlearning. Critical pedagogy - Concept - Need, Implications to teaching andlearning.
3	July-2021	5	Unit-5: ICT Integration
			• ICT integration with assessment: Mapping of Assessment tools; Portfolio assessment; Rubrics; ManagingData
			Preparation and planning of multimedia lessons in school subjects.
			• Activities are to be organized in connection with multimedia lessons: Role of teacher (before, while, after multimedia lessons); Social media and its importance in learning (Twitter, Facebook, Whatsapp etc.)
			Online learning courses for professional development of the teachers (Right to Education Act, subject specific courses etc.)
4	Aug-2021	5	 Continuous professional development of teachers through connected groups - Subject forumsand exchange of idias, practies, conceptual clarities etc. Open education resources using defferent ICT plotforms-MOOC.
			Providence
5	Sep-2021		• Revision

Taskl:

Analyses chool text books to construct and discuss pedagogic elements. Presentation of analysis

Task2:

Develop concept maps to design subject based and thematic based curriculum materials

Task3:

Observe, document and interpret class room discourses. Prepare and present are port.

Task4:

Investigate perspectives in children's literatures and other teaching learning resources. Prepare and present a report.

Task 5:

- i. Plan and conduct one lesson in each of the five school subjects integrating relevantandsuitableinteractivemulti-mediaOERsofyourchoicefromWWW using available suitable ICTs during the second term of school internship. Receivethefeedbackfromyourmentorandmodifysubsequentlessons.
- vi. FormaGooglegroupofminimumof5friendsfromyourclasstoworkwithyou on a project to be presented using PPT in your D. El. Ed. class. Inform themby e mail, objective of this collaborative work, to be shared on line by all those involved. Ask each one to prepare five slides with at least one link to audio/videomaterial
- vii. Select at least 3 multimedia OERs and integrate them in the lesson plan selectingatopic of your choice from your most favorite subject in the school.
- viii. Using hot potatoes or any suitable available ICT, prepare a test with twenty different types of questions including multiple choice items on a topic of your choice. Administer it on your class and prepare the result sheet using spreadsheet.
- ix. Usinginternet, find and suggestatle ast five live links, providing information on topic of your choice, for the children of Standard VII, to refer for self-study. Ask them to prepare a write upofapage using word processors of tware-office word.

205 - ART AND ART EDUCATION (Value Added and Co-curricular Paper)

Sl. No.	Month	Unit	Content
1	April-2021	1	 Unit 1: What is Art? What is Art? Art and Its Role in HumanCivilization Introduction to Different Forms of Arts Art and Craft with special reference toregional practices Unit-2: Art Education: Perspective of Different Philosophers and Education ist Indian Philosophers — Tagore, Gandhi, Devi Prasad. Foreign Philosophers — Herbert Read, John
			Dewey, Howard Gardner, Herbert Spencer, Elliot • Foreign Philosophers — Herbert Read, John Dewey, Howard Gardner, Herbert Spencer, • Elliot. (contd)
2	May-2021	3	Unit:3 Art education in Primary Classes - Syllabus and Academic Standards • Relevance of Art Education in Primaryclasses (theoretical perspective) ArtEducationandChildDevelopment (visualizingroleofarteducationinthe building years of child'sdevelopment) • Syllabus and AcademicStandards Suhhested Activities for primaryclasses
3	July-2021	4	Unit-4: Art Education in Middle School Role of Art Education in MiddleSchool Art-ExploringHistories(LocalandGlobal) Music Dance Painting Theatre Suggested Activities for MiddleSchool
4	Aug-2021	5	 Unit-5: Art in Education OR Teaching Through Art Art as an educational/pedagogytool Art and other Subjects Demonstration lessons by the concerned lecturer and Teaching cum Internship Spell – II
5	Sep-2021		Revision

- 1) Art, Art appreciation and Art education: visit to places like crafts museums, BalBhavan, art galleries. Organize art, craft and music exercises with small groups followed by discussions and presentation. Any local exhibition or art event can be used as precursor for the session. The session should involve usingsomeartforawhilefollowedbyareflectionontheexperienceandthen connect it to their own school days andart.
- 2) VisualArt:Opportunitiestoexperimentandcreatepiecesofartusingdifferent medium.Focusoncolours,textures,compositionandthematiccontent.Using a range of medium: paper and water colors, paper and crayon, color pencils, acrylic,oilpaintandcanvass,student-teacherswould learnaboutlines,forms, compositions, colors, space divisions etc. Specific tasks would include free drawing, developing narratives in visuals, composition of an imagined situation,tellingastorythroughcomicstrips,creatingacollageusingimages, bits cut out from old magazines, news paperetc.
- 3) Music: Orientation to different forms of music with either a film screening or lecturedemonstrationbyanartisttoshowawiderangeofmusicalformsanda briefhistoryofoneortwoforms; connectingtomusicinnatureandwithinour own selves; voice training: opening the voice, music and rhythm exercises: singing, creatingmusic with different objects, practicing basic notes and tones; experimenting with one new forms: folk of any one region; collating music/songs from a community/within the family for special occasions or themes. (Eg. lullabies from different language cultures, harvest songs, songs during the freedomstruggleetc; createmusical pieces with others; designand run sessions on music with children
- 4) Cinema and Electronic Media: Provide exposure to alternative cinema, develop appreciation for cinema as an art and understand the impact of the electronic media, it's impact on our psyche and aesthetics; orientation with an expertonfilmsprovidingabackgroundfollowedbyscreeningofknownfilms; projects/discussionontelevisionandourmindscape:storylines,thecorruptionofa esthetics, intervention in familial spaces, increasing legitimization of violence; age appropriate viewing and selection offilms.
- 5) Literary Arts: linkage between language, literature and performing arts; appreciation of poetry as performance art, play reading and reading literature as an art, selection of poetic pieces and developing performances around it; exposure to readings in different language traditions: Hindi, English other regionallanguagesanddialecticsdrawinguponlocaltraditions.
- 6. Architecture and spatial Design: develop a deeper understanding of architecturalheritage, appreciation of spatial designs and the aesthetic sthere in:

- colonial, Mughal, Sultanate period, Post Independence etc. Through heritage walks; political dynamics of space and its changing trends; cultural social connections with architecture and town/city planning; connection to natural resources and access to these vis-a-vis architecture and design; spaces for children in a city.
- 7. DesigningaProjectforSchoolChildren:Participantstoidentifyaspecificage group of children and a relevant theme and design an art based project for them which should span over a period of time example a heritage walk to a nearbymonumentandapubliceventaboutit-includingartexhibition, plays, songs and other similar expressions; principles of inclusion, diversity, child-centered approaches would be a given and the participants would be encouraged to use all that they have learnt in an interactive manner; feedback from students, teachers and community would be used for evaluation of this aspect.
- 8. Read the syllabus of Art & Cultural Education for classes I to VIII and performanyoneartformintheclassroom andwriteareport.
- 9. List out local art forms and conduct interview with the local artist about the greatness of local art form and present status of the artist-Write are port.
- 10. Readthereferencebookspertainingtoalocalartformandwriteareviewand present.
- 11. Visit 1 or 2 private/ government schools and observe the implementation of Art & Cultural Education in theschools.

206 - YOGA, PHYSICAL & HEALTH EDUCATION – I

(Value Added and Co-curricular Paper)

Sl. No.	Month	Unit	Content
1	April-2021	1	Unit-1: Understanding Health and Well- Being
			The meaning of health andwell-being
			Biomedical versus social healthmodels
			Understanding the linkages between poverty, inequality and health
			 Web of causation; Social determinants of health- stratification structures, food, livelihood, location, sanitation, access to health services etc.
			Understanding Children's Health Needs
			 Food and nutrition; Communicable diseases; Child abuse in various forms and its impacts; Corporal punishments and its impacts.
			Reciprocal linkage between health and education
			 Childhood health concerns, hunger and malnutrition- Meaning and measures: Country/ State data.
			Morbidity Mapping- Methods, observation, daily notes.
			 Methods to understand children's health perceptions and self assessment of health
2	May-2021	3	Unit- 3: Physical Education
			 Meaning need and purpose of Physical Education, Olympics, Asian Games, SGF Games, various awards in sports andgames.
			• Impact of play and games (team spirit, cooperation, tolerance, problem solving, leadership). Physical measurements (height, weight, chest) and BMI [Body Mass Index] twice in a year.
			 Sports and games (interrelations, sports and games in schools, traditional/ local games, modern games, ground preparation and courts, rules of games and sports).
			Various competitions and tournaments and participation of children.
3	July-2021	4&5	Unit-4: Yoga and health
			Meaning, concept ofyoga.
			Concept ofpancakośa Description of the constitution of th
			Potential causes of illhealth according to yoga.Yogaas apreventive and promotive health care.
			 Yogaasapreventiveandpromotiveneatth care. Yogicprinciplesofhealthyliving:Āhāra, vihāra, Ācāra, Vicara
			andVyavahāra
			Yogicconceptofholistichealthandwellness
			Preparations and precautions for practice of yoga.
			Unit-5: Yoga and Physical Development

	•		
			The Integrated Approach to Yoga
			Characteristics of PhysicalDevelopment
			Yoga practices forFlexibility
			Yoga practices forStamina
			Yoga practices forEndurance
			Yoga practices for LungCapacity
			Yoga practices forLongevity
4	Aug-2021	6	Unit-6: Health of Children in the Context of School
			Mid Day Meal Programme: Rationale, Objectives, Components, Functioning, Concept of Classroom Hunger
			 Measuringthe'HealthoftheSchool':Issues of Water, sanitation, toiletsetc.
			 Development of mental health through participating in culturalprogrammes.
			Role of the teacher and engagement with the programmes
			Capturing children's perceptions on food, work, play, Mid Day Mealetc.
5	Sep-2021	7	Unit-7: Curriculum, Syllabus and Assessment
			Syllabus for Physical & Health Education.
			Academic Standards
			• Assessment

• TheexerciseundertakenintheSchoolInternshipProgramme(SIP),ofmaking a profile of a child and understanding his/her social context during the internshipneedstoalsoconnecttothehealthofthechildandunderstandingall possibledeterminants. Thestudentteacheristoobserveandfindoutaboutthe

child's health conditions. The child's health profile is to explore the possible health determinants operating in the child's life. Issues of settlement/housing, livelihood of families, poverty and deprivation, food habits, water access and safety etc are explored through observations, informal group discussions and visits to the community. The teacher educator prior to the SIP will guide the studentteachersonmethodsandethicalissues, sensitivity during questioning.

- MorbidityMappingExercisetobeconducted.Inthisthestudentteachertracks
 children's attendance and tries to find out reasons for children's absenteeism.
 She records illnesses she observes or as reported by children/peers and develops a healthreportcard.
- The student teacher develops a report card for the 'health of the school'. She surveys parameters like water, toilets, sanitation, building, playground etc during the SIP. The idea is to encourage the student teachers to explore multiple dimensions of each parameter that impacts on children's health in school. For eg: It is not sufficient to just ask if there is toilet. It is important to explore, is it functional? Is it clean? Is the rewater available for the toilet setc.
- Studentteachersrecordobservationsusingtoolsdevelopedaswellascreative methodologies to capture children's perceptions regarding Mid Day Meal to reflect on the health programmes operating in school. The idea is to observe and comment on various aspects of the MDM programme such as quantity, quality, distribution system, 'culture of the programme' and also give legitimacy to children's perceptions on the MDM. For e.g.; What they like, don't like of the MDM, what they eat before school, are they able to study if they are feeling hungry etc. These are explored not through interviews but through creative worksheets which the children fill out. Such methodologies are part of the readings mentioned for Unit III and should be made with the guidance of the teacher educator beforeSIP.
- Visit any Yoga center and write a report on the activities conducted at thecenter.
- InterviewanyoneYogaPractitionerandwriteareportonbenefitsexperienced by?him/her.
- Collect information on Yoga Asana by reviewing authoritative sources on Yoga and write ?a report onit.

Demonstrate before your peer group any five Asana and write a report on them. Practical Work can be divided across groups of students and must be followed by each group sharing with the larger class of ETE teachers. This sharing should be facilitated by the faculty to reflect on health observations, methods used, findings and a discussion on the culture of programmes, possible actionate a chercantakeetc. The idea of the project is not to just collect a lot of information on health aspects but to be ginaprocess of exploration and inculcate sensitivity towards health and its linkage with learning processes.

Month wise Division of Syllabus

5.3 SEMESTER –III

304 - EDUCATION IN CONTEMPORARY INDIAN SOCIETY-I (General Paper)

Sl.	Month	Unit	Content
2	Sep-2021 Oct-2021	1 1 2 2	 Unit-1: Colonial and nationalist ideas on education Colonial education, indigenous education, debate over education policy (Orientalists, Anglicists) development of English education, impact on content, pedagogy and the schoolsystem. Nationalist Movement - Rise of national consciousness, education reforms and legacy, influence of these ideas in shaping nationalist discourse in education. Social Movements in pre-independent India Voices of the marginalized and their struggles for equal participation ineducation Unit- 2 Indian Constitution and Provisions for Education Constitution and Education: Constitutional vision of independent India, Directive Principles of State Policy and education
3	Nov-2021	2	 Panchayat Raj Institutions and Education - 73rd& 74th Constitutional Amendments and itsimplications. Policies, Acts and Provisions related to education and children with specialreference to their contexts (class, caste, tribe,religion, language and gender)
4	Dec-2021	2	Equality and Justice in the Indian Constitution (Understanding the Preamble and basic concepts in Indian Constitution, Role of education to ensure Fundamental Rights); Reservation as an egalitarian policy: Equalisation of educational opportunities, Differential school system and idea of common neighbourhood and school system
5	Jan-2022	2	Human and ChildRights
	Feb-2022		Revision

Task 1

Studentteachers discussing roups Gandhi's vision of Basice ducation and its implications for school curriculum.

Task 2:

Student teachers can collect autobiographies, biographies, short stories focussing on education to analyse the nature of schooling in colonial and post independent India. (Om Prakash Valmiki's "Joothan", Rabindranath Tagore's "The Parrot's Training", for instance)

Task 3:

Student Teachers take up case studies of social movements in the region, for instance, Women, Dalit and Tribal movements, Displacement, Land Rights, Human Rights and examineissuessuchaseducationassocialaction, role of education in breaking the cycle of poverty and increasing opportunity.

Task 4:

StudentteacherstakeupgroupprojectsonthemessuchasFirstgenerationschoolgoers- issues and concerns; Education of children from slums, migrant children and other children in difficult situations- documenting experiences; Education of children with special needs-challenges and opportunities

Task 5:

Student teachers view films (such as Satyajit Ray's Apu Trilogy) to discuss issues like deprivation and formal schooling, drawing from their own experiences in school.

Task 6:

Studentteachersresearch, reflect and present their points of view on alternative visions of Indian democracy: presenting multiple perspectives on the expectations from democracy in India, and the institutions and attitudes of mindneeded to give expression to these.

305 - INTEGRATING GENDER AND INCLUSIVE PERSPECTIVES IN EDUCATION

Sl. No.	Month	Unit	Content
1	Sep-2021	1	 Unit – 1: Inclusive Education Forms of inclusion and exclusion in Indian education (marginalized sections of society, gender, children with specialneeds) Discrimination practices in schools and its implications Meaning of InclusiveEducation
2	Oct-2021	1&2	 Addressing Inequality and Diversity in Indian Classroom: pedagogical and curriculum concerns Understanding and exploring the nature of assessment for inclusiveeducation Unit – 2: Children with Special Needs Historical and contemporary perspectives to disability and inclusion, types of disability, identification, assessment andinteraction. Range of learningdifficulties
3	Nov-2021	2&3	 Disability identification, assessment and interaction Approaches and skills for teaching children with learning difficulties Unit-3: Inclusion and Classroom Management
			Academic inclusion and support
			• Inclusiveclassrooms
			Mono-grade, multi-grade situation and inclusion
			Multilevel strategies
	D 2021	1	Multi-lingualsism and inclusion
4	Dec -2021	4	Unit-4: Gender, School and Society
			Social construction of masculinity and femininity
			Patriarchies in interaction with other social structures and identities
			 Reproducing gender in school: Curriculum, textbooks, classroom processes and student-teacher interactions
			Working towards gender equality in the classroom
5	Jan -2022	5	Unit-5: Integration of gender and inclusionperspectives
			• Reflection on personal growth vis-à-vis beliefs, assumptions and stereotypes.
			 Analyses of gender and inclusion perspectives gleaned from rest of the courses in the context of current schooling practices.
6	Feb -2022	5	Analyses of gender and inclusion perspectives gleaned from rest of the courses in the context of current schoolingpractices.

- Observe a classroom/ school and write a report on how children are excluded from the school or classroom processes. Write are port and present.
- Identifytheoutofschoolchildren(3 to 5members) in a village and askthem why they were dropped out from the school. Write a report on reasons for exclusion.
- Collect the admission rules and examination related rules and analyse them whether these rules are affecting children for inclusion or exclusion. Write a report and present.
- Asktheteachers/Headmasterwhatentitlementsarebeinggiventothechildren forinclusionofchildreninthe school. Writeareportand present.
- List out the children's languages in the school and ask the teachers how they areaddressingmulti-lingualsituationintheclass. Writeareportandpresent.
- Ask the class V language teacher about the levels of the children and how he handlethemultilevelsituationintheclass. Writeareportandpresent.
- Visit a Primary School (2 or 3 teachers working school) and ask the teachers how they are preparing timetable and handling the classes in multi grade situation. Write a report and present.

306 - SCHOOL CULTURE, LEADERSHIP AND TEACHER DEVELOPMENT

Sl. No.	Month	Unit	Content
1	Sep -2021	1&2	Unit-1: School and School Culture • The concept and purpose of school (It's an organization/ institution; it has resources/ processes/outcomes). • School andcommunity • School culture andorganization • School ambience and environment and infrastructure Unit-2: School Level Programmes and Activities • School timetable/ schedule • Schoolassembly • Schoollibrary • SchoolDevelopmentPlan-Planning, implementation andassessment • School communityrelationship • School games, sports,tournaments • School level culturalactivities • School levelrecords • Resources - Human, physical,financial
2	Oct -2021	3&4	 Unit-3: School Effectiveness and School standards School effectiveness and itsimprovement School improvement – Strategies, initiatives Schoolperformanceevaluation: Processand performance indicators Understanding developing standards in education (Academic Standards for curricular and co-curricular subjects)
3	Nov -2021	4&5	 Unit-4: School Management and Leadership Conceptofschooladministration, management andleadership Types of managements andleadership HM as a leader: Delegation, conflict management, maintain relationship (inter personal); administration, team building and team work, school improvement, modeling, resourcemanagement, community relationship. Unit-5: Academic Leadership of Headmaster Allotment of subjects: Curricular and co- curricular Ensuing teacher preparation (lesson plan/ TLM etc.) Ensuing effective classroom Teaching Learning Process

4	Dec -2021	5&6	 Academic monitoring - Classroom observations, observations of teachers and children records, assessment of children performance and progress. Baseline testing and conduct of remedial teaching as a whole school process. Demonstration of children performance to the parents during SMC meeting (RTE-2009) Conducting staff meeting - Review performance, recording the minutes, resolutions, fixing targets. Unit-6: Teacher - Professional Development Teacherasanorganicintellectual, social transformer and socialchange Teacherasaco-learner(learningonacontinuous process) Rolesandresponsibilitiesofteacherand accountability
5	Jan -2022	6	 Teacher professional ethics Teacher and communitydevelopment Concept of a teacher development, teacher education and teachertraining. Currentstatusandpracticesofteacherdevelopment Government/managementinitiativeprogrammes Self directed and managed professional development Impact of teacher development on students, organization and community. Pre-service teacher education: Concept, nature, objectives, scope. In-service teacher programme: Purpose and practice of various commissions and recommendations
6	Feb -2022	6	 Continuous professional development - Programmes - Initiatives and Strategies: Read and reflections, reflective practices, journal writing, action research, research skills, habit formation, attending seminars and programmes, guidance and counseling, career development courses and trainings, membership in professional forums and libraries, using internet and connected learning, resource collection, association with professional institutions i.e. SchoolComplex, MRC, DIET, SCERT, NCERT etc., participation in educational debates and movements. Roles, functions and networking of institutions like NCERT, NCTE, NUEPA, SCERT, IASE, CTEs, DIETs and theirwebsites.

- The practicum component of this course is meant to help students make specific connections between field observations, class discussions, analytical presentations and participation in changevisualization.
- Prepare a School Development Plan (SDP) and present.
- Develop a questionnaire for an HM and write a report on whether he may be a leader ormanager.
- Meet 2 or 3 Headmasters of UP/ High School and list out the problems of their

schools and its management. Discuss with them about how do they solve the problems. Write a report on your experiences.

- Managing theclassroom
- The role of the schoolhead
- Interactions with supportorganizations
- School improvementplan
- Change facilitationprocesses

301 - PEDAGOGY OF ENGLISH AT PRIMARY LEVEL-I

Sl. No.	Month	Unit	Content
1	Sep -2021	1	Unit-1: Issues of Teaching of English at the Elementary Stage
			 Issues of learning English in a multi-lingual/ multi-culturalsociety: Issuesrelated to teacher proficiency; Acquisition of language Vs Preparing children for examination, English as the language of prestigeand power; the politics of teaching English in India; key factors affecting second language acquisition Teaching English as a second language: developmental, socio-economic and psychological factors;
			• Thenatureflanguage-learningversusacquisition; the pedagogy of comprehensibleinput
2	Oct -2021	2	Unit-2: Teaching Learning Material and Textbooks
			 Nature of the teaching learning material at Primary Level – Classes I and II/ Classes III toV.
			Role of big books and theme pictures in teaching English.
			• Philosophy and guiding principles for the developmentofEnglishtextbooks-NCF,SCF,RTE, Position of Paper on Teaching ofEnglish.
			Selection of themes and unitstructure.
			Academic Standards and learningindicators.
3	Nov -2021	3	Unit-3: Approaches to the Teaching of English
			• Approach- Method - Strategies and techniques; Behavioristic and Structural Approaches: grammar-translationmethod, directive method, communicative approach, suggestopedia.
			• The pedagogy of comprehensible input. Approaches to teaching of English to young learners. Second Language acquisition theories - Stephen Krashen, Steven Pinker, Vivian Cook, Vygotsky.
			• The Cognitive and Constructivist Approach: nature and role of learners, different kinds of learners – young learners, beginners, teaching
			• Large classes etc, socio-psychological factors (attitude, aptitude, motivation, needs, level of aspiration, home environment/ community/peer group)
4	Dec -2021	3&4	 State specific initiatives - Paradigm shift in teaching and learning; Narrative as a pedagogicaltool; Discourse oriented pedagogy. Activities: Seminars, presentations, on various topics related to language and language pedagogy, analysis of Primary textbooks (I to V)government
	AIM ANAC.	2020	• and private publications.

			TI to A Classification of the Classification
			Unit – 4: Classroom Transaction Process
			• The Modular transaction – Pre-reading, Readingand Discourse construction and editing; Role of interaction in transaction of different modules in a unit; Steps inteaching.
			Pre-reading – objectives, strategies – theme-related interaction and production of oraldiscourses
			• Reading – objectives; the micro-process of reading comprising individual, collaborative reading; extrapolating the text; graphic reading for the beginners
			Post-reading- Objectives, Process of discourse construction; individual writing, refining through collaboration; graphic writing for thebeginners
5	Jan -2022	4	Editing the writtendiscourses
			Publishing children'sproducts
			• Dealing with textual exercises (vocabulary, grammar, study skills, project work)
			• Strategies for addressing low proficientlearners Multi grade and multi level teachingstrategies.
6	Feb -2022		Activities: Storytelling, team teaching, framing of questions, picture basedinteraction

- HowteachinglearningisbeingtakenupinPrimaryclassesIandIFclassesIII to V and what are the gaps that you have identified between theory and practices.
- Writeareportaboutthematerialavailableanditsutilizationinclassroomsfor learning Englishlanguage.
- Write a report on how far the children are following the textbooks and its various components and how effectively teacher following the suggested the classroom process in deliveringthem.
- Nature of errors committed by children in using the language in spoken and written and how can we overcome thoseerrors?
- Nature of interaction is taking placed uring the stages of class room transaction.
- $\bullet \quad Prepare a Summative Question Paper basing on the Academic Standards.$
- Collection of children rhymes/ songs and stories for classes I and II/ classes III toV.
- Develop activities to improve the speaking and writing skills among the students.

302 -PEDAGOGY OF ENVIRONMENTAL STUDIES AT PRIMARY LEVEL-I

Sl. No.	Month	Unit	Content
1	Sep -2021	1	 Unit-1: Understanding EVS/ Concept of EVS Introduction Meaning, Scope and Importance of EVS, its EvolutionasaCurricular AreaatPrimaryLevel. Different Perspectives on EVS: NCF-2005, SCF- 2011, Prashika program (Eklavya's Innovative Experiment in Primary Education)- To see how curricular vision takes the shape of syllabus.
			• EVS as an integrated area of study: Drawing upon Understanding from Science, Social Science and Environmental Education.
2	Oct -2021	1&2	 Objectives/ principles of teaching EVS – NCF- 2005. NPE-1986 – 10 core elements(Social). Unit-2: Understanding Children's Ideas Introduction. Knowledgethata5-12YearChildHas(Ideasand alternative conceptions) How this knowledge is acquired? (How Children Learn?)
3	Nov -2021	2&3	 Relating Cognitive Growth of Children to The Development of Concepts with Reference to EVS (Piaget) Innateabilities Unit-3: Teaching of EVS/ Classroom Transaction Process Approach in EVS: Process Skills- simple experiments, observations, classification, proving questions, framing hypothesis, designing experiments, recording results, data analysis, drawing inferences, interpretation of results, giving examples.

			,
4	Dec -2021	3	Map-Picture Differentiation, MapReading
			 Ways of conducting inquiry: Activities, Discussions, Group work, Field visits, Survey, Experimentationsetc.
			 Activity approach (What is activity? Profile of activity, Primary Education Project principles).
			 Using Children's Ideas as a Tool forLearning.
			Role of Teacher in ClassroomTransaction.
			Integration of Subjects (Language and Mathematics)
			Use of ICT in the Classroom.
5	Jan-2022	4	Unit-4: Planning for Teaching EVS
			Whyplanning?
			Some examples of a good EVSclass
			Addressing children's alternative conceptions: Some experiences.
			Concept map and thematic Webcharts
			 Evolving a Unit Plan Framework and Use
			ResourcePoolofMaterials
			LocallyavailableMaterials
6	Feb-2022	4	Audio-visuals and ElectronicMaterials
			Lab/ ScienceKit
			Library
			Peer Group Learning (using children'sideas)
L			

- Reading of Position Papers of NCF-2005, SCF-2011 pertaining to EVS subject and write are port on the purpose and process of the EVS teaching.
- List out questions from children of 3 to 8 years age group on environmental concepts, issues based on observations and interactions.
- Establishthatchildrenarenaturallycuriousandpossessskills of observation, exploration, question and work collaboratively based on observations of children. Write a report with properexamples.
- ObserveaEVSclassroomandwriteareporttowhatextenttransactionischild centered/ process skills oriented and linking outsideschool.
- Analyse the EVS textbooks and write a report on representation of Academic Standards in thelessons.
- Develop a resource kit for effective transaction of EVS subject with locally available material.
- Develop a model question paper for class V of EVSsubject.

303A - PEDAGOGY OF ELEMENTARY LEVEL SUBJECT (OPTIONAL) Paper

[A] Pedagogy of English Language Education (Classes VI toVIII)

Sl. No.	Month	Unit	Content
2	Sep -2021 Oct -2021	1	 Unit-1: English Language Classroom Introduction Aims and objectives of English language teaching. State policies on language andeducation. Current English language teaching-learning processes and their analysis: Beliefs and assumptions in English languageteaching. Multilinguilism as a resource in teaching of English.
2	OCT -2021		 Organizing English languageclassroom. Role of the Teacher; Teacher preparation; Professional development of the teacher; Teacher as afacilitator. Errors in language learning: The role of teacher in addressing theerrors. Paradigm of shift in English language teaching.
3	Nov -2021	2	 Unit-2: Developing English Language Skills – I Introduction Listening andspeaking What does listeningmean Fluency and accuracy inspeaking. What does speaking mean Interaction and its role in developing of listening and speaking: Authentic material for listening Developing oral discourses: Description, dialogue, story/ narrative, poem/ song, short play, choreography, debate and discussions, interview, speechetc. Indicators for assessing the oral discourses. Teaching vocabulary and grammar at Elementary Level.

4	Dec -2021	3	Unit-3: Developing Language Skills –II			
			• Introduction			
			Literacy and Reading			
			- Reading an expository texts; strategies; comprehension; activating schema; building schema; reading to learn; acquisition of registers			
			 Ways of reading; pre-reading and post reading activities. Individual reading and collaborative reading. 			
			- Beyond the textbook: Diverse forms of texts as materials forlanguage.			
			- Relationship of language and society: Identity, power and discrimination			
			- Nature of multilingualism: hierarchical status of Indian languages and its impact on classroom dynamics			
			- Helping children to become goodreaders.			
			Writing			
			What is writing and relationship between Reading andWriting			
			Developing written discourses: Description, narrative/ story, interview, essay, biography, drama/ skit/ notice/ posteretc.			
			 Writing as a tool of consolidating knowledge, responding to/ aesthetically relating to narrative texts. 			
			o Individual writing and collaborativewriting.			
			Editingofchildrenwritingsbasedontheindicators. The description of a live to a local activities and activities and activities and activities are a local activities.			
			 Teacher is a facilitator in developing reading and writing among thechildren. 			
			Assessment ofwriting.			
			Linkages between reading andwriting.			
5	Jan-2022	6	Unit-6: Classroom Planning and Evaluation			
			• TeachingReadiness:PlanningofTeachinglanguage, Year plan, Unit plan and Period plan: Steps in teaching.			
			 Assessment and evaluation – Definition, need and importance. 			
			Continuous and Comprehensive Evaluation (CCE) – Assessment for			
			learning, Assessmentoflearning, Formative Assessment and tools, Summative Assessments, Weightage tables, feedback and			
			reportingprocedures.			
			oRecording the children performance and CCE Register.			
			Beyondthetextbook:Diverseformsoftextsas materials forlanguage.			
6	Feb-2022	6	Relationship of language and society: Identity, power and discrimination			
			 Nature of multilingualism: hierarchical status of Indian languages and its impact on classroom dynamics Helping children to become goodreaders 			
			Tresping emitten to occome goodicaders			

- How teaching learning is being taken up in Primary classes VI to VIII and whatarethegapsthatyouhaveidentifiedbetweentheoryandpractices.
- Write a report on how far the children are following the textbooks and its various components and how effectively teacher following the suggested classroom process in deliveringthem.
- Nature of errors committed by children in using the language in spoken and written and what are the strategies to overcome thoseerrors?
- Nature of interaction taking place during the different stages of classroom transaction.
- PrepareaSummativeQuestionPaperandindicatorsforassessingthechildren performance.
- Develop activities to improve the speaking and writing skills among the students.
- Write a report on how children are exposing to the language outside the classroom.
- Collect different material from authentic sources and prepare a plan to teach the oral and written skills of thelanguage.
- Write a report on teacher inputs during construction of discourses (oral and written) and editing/feedback.
- Organizing English language clubs inschools.
- Interact with any 5 teachers and prepare their biographies of their English languagelearning.

303[C] Pedagogy of Maths Education (Classes VI to VIII)-I

Sl. No.	Month	Unit	Content
1	Sep -2021	1	 Introduction to Upper Primary School Mathematics Nature of Mathematics, nature of child, the purpose of characteristics of Maths in school curriculum at Elementary Level, truthcriteria. Transition from early school Mathematics to upper primary schoolMathematics. How to develop Mathematical thinking at Elementary Level (concrete, abstract, specific to general) Meaning and processes of mathematical reasoning - justifying, conjecturing and generalising; inductive and deductivereasoning; algebraic& geometric thinking.
2	Oct -2021	1&2	 Validation Processes - informal & intuitive; visual proofs and formalproof. Constructivism and Mathematicslearning. History of Mathematics (Aryabhatta, Bhaskera, Brahmagupta, Euclid, Fermat). Unit-2: School Mathematics Topics and Processes Number Sense & Systems - compare, order and compute with whole numbers, positive fractions, positive decimals, and positive and negative integers; solve problems involving fractions, ratios, proportions and percentages; simple and compound interest; factoring of numerators and denominators and properties of exponents and powers; different representations of fractional numbers (fractions, decimals, percents) and changing one to another; factors, multiples,LCM and GCD square roots and cube roots
3	Nov -2021	2	 Measurement & Geometry - Geometric shapes, geometricvocabulary; perimeter, area of different two dimensional shapes, how to measure the circumference and area of a circle and concept of ∏; surface area, and volume of basic three- dimensional figures; using mathematical instruments to construct and measure shapes and angles; symmetry; lines and angles, congruent triangles; quadrilaterals - classification and properties. Nation of patterns that helps in appreciating the use of unknown expressing the generalization resulting from the pattern. When and why we use variables, functional relations, mathematical investigations, puzzles that relay on algebrical thinking.

4	Dec -2021	3	Unit-3: Teaching of Mathematics for Classes 6 to 8
			 Visit of a good Maths classroom (vision of the classroom), role of theteacher
			The role of a upper primary school mathematics teacher
			 Developing conceptual understanding and different approaches/ strategies/ methods toteach atopic
			 Developing the processes of mathematisation - Words in the concepts, communicating, reasoning, argumentation, justifying, generalising, representing, problem-solving and connecting
			 Organising and facilitating Upper Primary School mathematics classrooms that support mathematisation processes.
			 Mathematics phobia and addressing it; Issues, problems in learning Mathematics and action research.
5	Jan-2022	3	 Statistics, Data Analysis and Probability - collecting and organising data; interpretation of ungroupeddata; understandtheconceptsofmean, median, and mode of datasets and how to calculate the range; graphs;
6	Feb-2022	3	 Algebra-Usage of letters for numbers in formulas involving geometric shapes and in ratios to represent an unknown part of an expression; algebra expressions and identities; solvinglinear equations;

- AnalysetheMathematicstextbooksatElementaryLevelandwriteareporton reflection of AcademicStandards.
- Write mathematical problems for each AcademicStandard.
- Observeamathematical classroom at Elementary Level, write a critical report on how these classroom processes helps the children to develop mathematical thinking.
- DevelopaMathsquestionpaperforanyoneoftheclassatElementaryLevel.
- Observe a Maths classroom at Elementary Level while transaction of a unit from introductory part to 'Do this', 'Try these', 'Think-Discuss' and exercises. Write a critical report on teachers role involve children in the classroom process and develop mathematicalthinking.
- Take any other publications, textbooks at Elementary Level. Compare the presentation of the content, concepts, exercise setc. Write a critical report on it.
- AnalysetheMathematicstextbooksofUpperPrimaryclasseswithidentifying some concepts and procedures with problems. Develop some moreactivities

116

- and Teaching Learning Material (TLM) to understand those concepts and write a critical report on it.
- Identifytwo(2)conceptsineachareaofMathematicsandconstructAcademic Standardsonthoseconcepts. Writeacritical reportonit.
- Analyse any 5 problems done by 10 children. Identify strengths and weaknessesofconceptsonwhichstudentsperformed. Identify which concepts are formed and which are not formed. Write a critical report on it with reasons.
- Interview 10 children on 'Do this', 'Try this' and 'Think and discuss' exercises on a selected topic. Record all the answers of the children on whether objectives are achieved or not. Write a report on it and suggest remedial activities with TLM if the objectives are notachieved.
- Identify any two (2) concepts and browse different websites to collect 10 activity sheets on the concepts. Conduct a test with the help of activity sheets and analyse the results. Prepare activities and TLM for remedial teaching.
- Identify five (5) verbal problems on a concept at Primary Level. Choose any other than textbook material from market. Ask any five (5) children to read and explain the solutions to the problems. Select other five students and ask themtoreadthetextbookandexplainthesolutionstotheproblems. Conducta groupdiscussiononthedoubtsraisedbythestudents. Prepareareport.
- Identifyabout20verbalproblemsonratiosandproportionsandclassifythem oncriteriaofprocessing.Preparestrategiestoteachtheseprocessesandwrite report on yourexperiences.
- Identify about 20 problems on simple linear equations and classify them on criteria of processing. Prepare strategies to teach these processes and write a report on yourexperiences.
- How can you copy an angles through constructions? Explain the teaching strategies.
- Explaintheteachingstrategiesinlearningtheproofsinthegeometry.Suggest someactivities.
- Visit any Temple/ Mosque/ Church/ Gurudwara/ Palace/ Fort. Identify geometricalshapesusedintheirconstruction. Visualizethose constructions of geometrical shapes while the construction of saidplaces.

303[D] Pedagogy of Science Education (Classes VI to VIII)-I

Sl. No.	Month	Unit	Content
1	Sep -2021	1	Unit-1:NatureandScopeofScienceandChildren's Ideas inScience
			 Nature of Science, characteristics of Science, structure of Science, development of Science (historicalbackground)
			• Subject matter in sciences and social sciences; is inquiry in different domains of knowledge different?
			Science as information orinquiry.
			What do scientists looklike?
			Scientificmethod.
			Values associated withscience.
			Children's ideas related to scienceconcepts
			 Probing, documenting and analyzing children's ideas related to scienceconcepts.
			Significance of Science in curriculum at Upper Primary Level (as per NCF-2005, SCF-2011, Position Papers and Syllabus)
2	Oct-2021	2	Unit-2: Revisiting School Science
			 Investigating different themes and interdisciplinary concepts using children's questions.
			How do cloudsform?
			How do plants and animals utilize theirfood?
			How does an electric bellwork?
			Where all does the rain watergo?
			Whydoesacandlebecomeshortonburning?
			How do babies develop insidemothers?
			Planning for teaching – Living and nonliving
3	Nov-2021	2	Planning for teaching – Heat andtemperature
			Planning for teaching – Acid and basesetc.
			 For doing the above, students will study available literature, conduct simple activities and experiments, record observation, discussions with peers and teacher, reflect on how they arrived at questions, why they choosecertain ways of conducting inquiry etc. This exercise needs to be facilitated by their teachers.

4	Dec-2021	3	 Unit-3: Understanding Science Textbooks and Pedagogy PerspectiveandguidingprinciplesofScience textbooks. Themes, structure of the unit, nature of the exercises and itsimplications. AcademicStandardsandindicatorsat ElementaryLevel. Howtousethetextbooksandconnectingto children's everyday lifeexperiences?
5	Jan-2022	5	 Science for All Issues of gender, language, culture and equity in scienceclasses Critiquing textbooks andresources Introductiontoscienceandsocietyinterface Do all people get enough water for domestic purposes and agriculture? Green revolution and sustainable farmingpractices. What has led to farmersuicides? Indigenous knowledge practices- metallurgy, heritage crafts, local innovations, National Innovation Foundation(NIF). Loss of habitat and endangered species (local specific). Indigenous people and issues of survival.
6	Feb-2022	5	 Many such issues can be taken up for literature survey, discussions, campaigning throughposter, public hearing, talks of concerned people like farmers and also experts in the field. Concept of Popular Science, agencies of Popular Science, Popular Science and scientific temper.

- Interview a local scientist to understand how s/heworks.
- Take up a design and technology project integrating work, local empirical knowledge with science andtechnology.
- Observe a child learn a concept/perform a task in science class. Prepare and present areport.
- Design and conduct guided inquiry lessons forchildren.
- Analyse the Science textbooks and write a report on reflection of Academic Standards.
- List out the experiments from the textbooks at ElementaryLevel.
- ObserveaScienceclassroomandwriteacriticalreportontowhatextent this classroom processes are reflecting the nature of Science.

- Preparation of a file on development of Science and biographies of scientists.
- Organize a field trip with students and submit areport.
- Preparation of a worksheet for children participation in field investigation activities.
- VisitDistrictScienceCentre/ScienceFair/Exhibition/INSPIREandprepare a report on at least five (5)exhibits.
- Preparation of some misconceptions in learning Science (motion, motion of planets, light, heat,gravity).

303-[E] Pedagogy of Social Science Education (Classes VI to VIII)-I

Sl. No.	Month	Unit	Content
1	Sep -2021	1	 Unit-1: Introduction to Social Science Purpose and significance of social science in school curriculum at Elementary Level (NCF- 2005, RTE-2009,SCF-2011). Significance of national core elements (NPE- 1986) and Social Sciencecurriculum. Concept, nature and scope of social science, differentperspectivesonnatureandscope, social science and its place in schoolcurriculum Misconceptions about social sciences, true concepts of Social Science
			 and values associated with Social Science. Significance of History, Geography, Political Science and Economics.
2	Oct -2021	1&2	 Interconnectionandrelationshipbetween History andGeography Approaches to organize Social Sciences- Integratedissuebased,disciplinecentered,and interdisciplinary. Constructivism and teaching SocialScience Unit-2: Key themes in Social Science Time,continuityandchange(history)society andsocialstructure,state,government,power and authority, citizenship (political science.)
3	Nov -2021	2	 Region, people and resources, relationship between region and resources, interaction between people and resources(Geography) Market, exchange andlabor(Economics) Contemporary issues and challenges of world as well as Indian society in making global family and world peace. Key themes and State syllabus of Social Science textbooks and its implications.
5	Dec -2021	3	 Unit-3: Understanding Textbooks and Pedagogy Philosophy and guiding principles of developmentofSocialSciencetextbooks. Content, approaches and methods ofteaching Social Science, interactive and participatory methods teacher as facilitator (Project method,

			 problem solving, debate and discussions, inquiry based approach, activity based approach etc.). Themes, structure of the unit, nature of the exercises and itsimplications. AimsofandobjectivesofteachingSocial Science.
6	Jan-2022	3	 AcademicStandardsandindicatorsforlearning. Learning resources for effectivetransaction.
	Feb -2022		Revision

- Choose a few regions in the country and draw up a list of different festivals celebrated in those regions. Which are these celebrations are shared by different regional and religious communities? Find out how the historical and geographical factors have influenced the diversity found there. Explore the connections between the historical and geographical factors.
- Discuss the most significant technological, economic, social and cultural changes taking place in the town/village in which you live, in a group. Which sources will you use to find out about these changes after a period of twenty years? What questions will you frame? Which sources are likely to reveal more? Write your findings in the form of areport.
- You are a historian. Choose the economic/ social/ political history of your region and discuss how you will teach it to your students.
- Find out where records are kept in your village/ city. What are the types of records? Whowrites these records and who are the people who use them?
- Make a weather calendar for one-week collecting data from newspapers. Use pictures or symbols to show different types of weather. Analyse the data and present your findings with the help of charts and diagrams.
- Prepare a project about an issue connected with the working of your State Government like an education programme, any law and order issue, midday meal scheme, etc. Collect stories, interviews, poems, case studies, newspaper reports.Readthecollectedmaterialandwriteyourobservations, analyzing and evaluating the programme.
- Thinkofacommonthingweuse, example, tea, milk, sugar, paper, etc.
- Represent in a visual form, the chain of events that takes place before it reaches you. Discuss the concepts of market, labour and exchange in this process and think of a suitable teaching strategy to teach these concepts to yourstudents.
- Observe Social barriers prevailing in your village and suggest possible solutions.
- Prepare a brochure on your village by incorporating historical, geographical, political and economicaspects.
- Conduct Mock Assembly/ Parliament on any one of the important issues of society and write areport.

307- WORK & EDUCATION

(Value Added and Co-curricular Paper)

Sl. No.	Month	Unit	Content
1	Sep-2021	1	 Unit-1: Work & Education: Meaning & Importance Orientation on thesubject. MeaningofWork&Education purposeWork& Education. The idea of MahatmaGandhi. Child work Vs Childlabour. Senseofisolationin work and education and its implications. Need of integration in work and education.
2	Oct-2021	2	Unit-2: Work & Education: Different Aspects of Integration in Work and Education • Self reliance(economic). • Sense ofResponsibility. • Respect forwork. • Correlation.
3	Nov-2021	3	Unit-3: School Curriculum and Work Work as a part of schoolcurriculum. The role in the work ofschool curriculum. Syllabus and AcademicStandards.
4	Dec-2021	4	 Assessment of Work & Education. Unit-4: Work & Education - Some Experiments and Activities Activities with regard to health and hygiene; food; environment; culture; consumer rights; household management; documentation; Preparation of models and goods; population activities etc. Conductof whole activities: Nature and purpose List of activities.
5	Jan-2022		Unit-5: Changing Scenario of Work & Education Relation between work andeducation. Problem and limitations in implementation of work andeducation

308 -VALUE EDUCATION & LIFE SKILLS (Value Added and Co-curricular Paper)

Sl. No.	Month	Unit	Content
1	Sep-2021	1	Unit-1: The Meaning and Importance of Values and Ethics
			The difference between morals andethics.
			Why do we needethics?
			Ethicaldevelopment.
			Operation ofethics.
			Theories of moraldevelopment.
			Importance of valueeducation.
2	Oct-2021	2	Unit-2: Which Values and Why
			Core values- that focuses on dignity and worth of aperson.
			• Exploring the universal values and from a personal perspective.
			Democratic and other Constitutional values.
			Harmonious way of living, with one another andnature.
			Learning to livetogether.
3.	Nov-2021		
3.	NOV-2021		Aestheticvalues.
			Critical and creative thinking values.
			Education forpeace. Lifeabilla advection.
		3	Lifeskills education. Indian Constitution – Human Rights and Education,
			Indian Constitution – Human Rights and Education, ChildRights
			What do we mean by humanrights?
			Human rights inIndia.
			RightsguaranteedbytheConstitutionofIndia.
			 Roleoftheschoolinobservationandpromoting human rights and childrights.
4	Dec-2021	4,5	Unit-4: Life Skills
			What are lifeskills?
			Need and importance of life skills in human life.
			Life skills education inschools
			Unit-5: Value Education and School
			The role of school in developing appropriate values in thechildren.
			1 8 11 1

		 How do teacher model their behaviour for improving the value system amongchildren. The nature of programmes and activities in the school to inculcatevalues.
5 Jan-2022	6&7	Unit-6: Value Education, Life Skills Syllabus for Value Education & LifeSkills. Strategies andapproach. Suggestedprogrammes. Role of schools andteacher. AssessmentofValueEducation&LifeSkills Unit-7: Syllabus of Life Skills and Value Education for Classes I to VIII. Academic Standards, Syllabus, Assessment

309- YOGA, PHYSICAL & HEALTH EDUCATION – II (Value Added and Co-curricular Paper)

Sl. No.	Month	Unit	Content
1	Sep-2021	1	Unit-1: Developing a Critical Perspective towards Health Education and Pedagogical Aspects of Teaching Health
			 Critical Reflection on the concept of Health EducationBehaviourChangemodelsv/sHealth Communicationapproach
			 Case Studies of Health Education approaches - eg: Eklavya, Madhya Pradesh, FRCH, Maharashtra, School Health Education Project, Swami Vivekananda Youth Movement, Karnataka etc.
			 School Health Curriculum Areas- CBSE, Other thematic outlines (eg: Eklavya, SHEP, FRCH, UNICEF (Nali kali Strategy- SchoolSanitation and Hygiene Education)
2	Oct-2021	2	Unit-2: Knowledge and Development of Health Concepts among Children
			Food and nutrition.
			Communicablediseases.
			 Understanding one's body, alternative systems of health and healing, safety, precautions of injuries.
			First aid (workshopmode).
			 Child abuse: This sub theme explores the meaning of abuse; its various forms and impacts; legal provisions. It also covers issues of corporal punishment and child sexual abuse. Theideaistobuildawareness/reflectionaswell asequipwithbasicskills/informationtobeable torespondtosuchsituationsasateacher.
			 Principles and benefits of Yoga Practical work – Visit of Primary Health Centers and report on 1) Height and Weightchart
			2) Calorie value chart 3) energy expenditure chart during activity 4) Immunization chart
			5) Pregnenents women and child feeding chart
			• 6) AIDSProgramme 7) Other ProgrammesinthePHC,TB,Leprosy,Dengue
			• Athletics

3	Nov-2021	3&4	 Organizingoftournaments, markingofcourts and officiating i) Kabaddi, ii)KhoKho iii) Volleyball iv) Bal badminton, v) Tennekoit etc. Unit-3: Focus on Yoga- learning its principles and basic asanas. DemonstratePranayamabeforeyourpeergroup and write a report onthose. Survey and find out people who got cured throughyogapractice and write are portonit. Learnanyonetypeofmeditation and write a report on your experiences. Understanding Emotional Health Needs, Diversity and Inclusion Understanding Emotional Health- self reflective journey
			 Emotional Health- Physical Health- Cognition linkages School Practices and what these do to a child's emotionalwell-being Diversity in the classroom- different learners, different needs and the concept ofinclusion. LearningDisabilitiesandengagementinthe classroom
4	Dec 2021	5	 Unit-5: Physical Education as integral to health and education NeedforPhysicalEducation; Linkagestohealth and education; Concept of a sound mind in a soundbody. Physical Education and Play Supervising and guidingchildren Developmentofteamspirit, coordination, cooperation Diversity in capabilities and interests National integration through physical activities, games and sports. Practical work based on Unit III and IV (Kabaddi, KhoKho, Volleyball, Bal badminton, Tennekoitetc.
5	Jan-2022	5	 Preparation on National Festivals. Practicalworkonexercisemovementsanddrill.
		l	

Practical Work: Based on Units 1 and 2: Before going for the School iternship Programme student teachers must develop materials/activities/strategies based on select health themes and try to do this by integrating with another subject. A Health Education lessonplanisprepared by the studentteacher and the chosen theme/concept is transacted during the SIP. The ideas and materials developed related to the health theme, research done to make sure information and content is correct and the actual transaction in class all form a part of the reflective report to be prepared. This report forms a part of iternal Assessment.

Practical Work based on Unit 4: To be learnt/conducted at the DIET, Basic Exercises and movements, Drill and Team Games (Kho-Kho, Kabaddi, Throw ball, Volley Ball, Footballetc.) The student teacher must learn techniques and procedure sto conduct these. As a practical activity during the student internship 2 it is suggested that student teachers observe the physical education (play, exercise) related activities taking place in the school. Is there a space to play? What equipment is available? What is being played by whom (girls/boys)? And what is the culture of play? Is the teacher actively engaged? Are there children being left out? What about children with special needs? Also student teachers are encouraged to document the unrecognized and indigenous games/play that students engage in. It is suggested that student teachers share their findings in the form of a short report. After the SIP, the course facilitator can also guide the class through a discussion of findings to re-emphasize the actual objectives of physical education for education and health and to also recognize the constraints operating in school in terms of lack of space, no sports equipment, ways of innovating etc..

Month wise Division of Syllabus

5.4 SEMESTER –IV

404- EDUCATION IN CONTEMPORARY INDIAN SOCIETY-II

Sl. No.	Month	Unit	Content
1	Feb-2022	3	Unit-3: Inequalities in Contemporary Indian Society
			 Nature and causes of inequalities - Equality, equity, democratisation of qualityeducation. Changing social structures and education: Caste, Class and SocialExclusion Power, Ideology and Merit in Education: differential school system and the idea of common neighbourhood school; Debates around growing influence of English language, mother tongue on medium ofinstruction New Economic Reforms and their impact on Education
2	Mar-2022	3	 Public Education Vs Private Education and Privatisation of PublicEducation Globalisation and its impact on education; Environmental degradation, Consumption patterns and issues of sustainable development; Loss of indigenousknowledgesystemsincludinglanguages Education and Human ResourceDevelopment
3	April-2022	4	Unit-4: Educational Policies and Programmes in Independent India
			 Important features of educational commissions and policies (Basic education and its review, Kothari Commission, NPE-1986, Learning Without Burden Report by Yashpal-2003,NCF- 2005, RTE-2009,SCF-2011) Important programmes (APPEP, DPEP, SSA, RMSA, TeacherEducation)
4	Jun-2022	4	Specialprogrammes:MidDayMeal,ICT,OBB, MLL.

5	July-2021	5	 Innovationsandalternativeformsofeducations: Eklavya, Diganathar, Rishi Valley, ABL, CLIP, CLAPS, LEP, Children Literature, Classroom Library, Children Diaries, WallMagazine, M.V. Foundation [Bridge Course Centres]etc Unit-5: Vision of an Inclusive and Democratic Indian Society Democratisation of Education
			 Peasant, Dalit and Feminist Movementsand their implications to Education Education of Disabled, Marginalised and SociallyDisadvantaged Role of state, school and teacher in building an Inclusive and Democratic IndianSociety

SEMESTER – IV

401- PEDAGOGY OF ENGLISH AT PRIMARY LEVEL-II

(Methodology Paper- Classes I to V)

Sl.	Month	Unit	
No.	IVIUIIII		Content
1	Feb-2022	5	 Unit-5: Planning and Material Development Introduction, what is planning; itsimportance. Year plan, unit plan and period plan; Teacher reflections.
2	Mar-2022	5	 Material development; preparation of material for young learners - Picture drawing, cutouts, flash cards. Developing and trying out various resources, techniques, activities and games for learning English Analyzing and reviewing teaching-learning material Activities: Critical examination of lesson plans prepared byteachers Preparation of year, unit and period plans Conducting workshop for preparation of materials for young learners
3	April-2022	6	 Unit-6: Assessment Review of current assessmentprocedures What is assessment, Why, How and When; Continuous and ComprehensiveAssessment
4	Jun-2022	6	 Formative assessment; assessment "as learning" and assessment "for learning" – tools and strategies; evidences of assessment; Summative Assessment – Tools, assessment of learning; Test items in Summative Assessment. Grading indicators for Formative and Summative Assessment both for oral and written products Recording of children performance - CCER egisters, Cumulative Record. Assessment and feedback.
5	July-2022	6	 Activities: Formative tools and awarding marks based on certainindicators. Preparation of summative question paper and developmentofindicatorsforawardingthemarks. Analyzing answer scripts oflearners. Critical examination of gradingindicators

402- PEDAGOGY OF ENVIRONMENTAL STUDIES AT PRIMARY LEVEL-II

(Methodology Paper- Classes I to V)

Sl. No.	Month	Unit	Content
1	Feb-2022	5	 Unit5: Understanding of textbooks and pedagogy Philosophy and guiding principles for the development of EVStextbooks. Content, approaches and methods of teaching EVS— Interactive and participatory methods, teacher as facilitator
2	Mar-2022	5	 Themes, structure of the unit, nature of exercises and its implications. Academic standards and indicators of learning. Learning resources for effective transaction of EVS curriculum
3	April-2022	6	 Unit-6: Classroom Planning and Evaluation Teaching Readiness: Planning of Teaching EVS, Year plan, Unit plan and Periodplan Planning for multi grade/ multilevels. Evaluation of Planning
5	June-2022	6	 Understanding Reflective Teaching andLearning Concept and Importance of Evaluation, CCE PreparationandSelectionofReflectiveQuestions Different Ways of Assessment and Reporting of Assessment for FurtherLearning
6	July-2022	6	 Assessment and evaluation – Definition, need and importance Continuous and Comprehensive Evaluation (CCE) – Assessment for learning, Assessment of learning, Formative Assessment and tools in EVS-Its examples, Summative Assessments, Weightages to Academic Standards (Blueprint), Model questions, Question papers, feedback and reportingprocedures, Records and Registers.

403- A – PEDAGOGY OF ELEMENTARY LEVEL SUBJECT (OPTIONAL)

(Methodology Paper)

Pedagogy of English Language Education (Classes VI to VIII)

Sl.No.	Month	Unit	Content
1	Feb-2022	4	 Unit-4: Literature What is literature; Difference between languageand literature. Types of texts; narrative and expository reader's response to literature, schemas and interpretationof texts. Engaging with a text
2	Mar-2022	4	 Various literary genres such as poem, story, biographyetc.; Analysisandinterpretationofvarious literarytexts Using literature across thecurriculum. Identification of literary features in a given texts from differentgenres.
4	April-2022	5	 Unit-5: Understanding of Textbooks, Pedagogy and Professional Development Philosophy and guiding principles for the development of English languagetextbooks. Content, approaches and methods of teaching English language – Interactive and participatory methods, teacher asfacilitator. Themes, structure of the unit, nature of exercises and its implications, analysis of thetextbooks
5	June-2022	5	 Academic standards and indicators oflearning. Learning resources for effective transaction of language curriculum. Role of ICT in teachingEnglish.
6	July-2022	5	ActionresearchinELT, steps in action research. Importance and avenues for continuing professional development

403[C] Pedagogy of Maths Education (Classes VI to VIII)-II

Sl. No.	Month	Unit	Content
1	Feb-2022	4	 Unit-4: School Mathematics Activities, Resources and Planning (contd) Aims and objectives of teachingMathematics. Academic Standards and learningindicators.
2	March-2022	4	 Activities - designing, creating andtransacting. Modelling real world problems inmathematics Textbook-Philosophyandguidingprinciplesforthe development of Maths textbooks (structure of the unit, nature of exercises, role of the teacher touse textbook effectively); understanding its pedagogical intent; learning to transaction it in classrooms
3	April-2022	4	 Mathematics Laboratory/ Resource Room/ Mathematical Club/ MathematicalKit. Learning resources for effective transaction of Mathematicscurriculum Planning for teaching - Year plan, lesson plan and periodplan.
5	June-2022	4	 Misconceptions in Upper Primary school mathematicstopics Assessment of conceptual understanding and mathematical reasoningabilities Continuous Comprehensive Evaluation - Formative &Summative Evaluation - marking or grading, reporting, record maintenance and communicating results to students and parents.
6	July-2022	5	 Unit-5: Mathematics Assessment and Evaluation Assessmenttools-typesoftests; preparationanduse of tests; development and use of rubrics; creating, maintaining and assessing throughportfolios Continuous Comprehensive Evaluation - Formative &Summative Evaluation - marking or grading, reporting, record maintenance and communicating results to students and parents.

Suggested Practicum

- AnalysetheMathematicstextbooksatElementaryLevelandwriteareporton reflection of AcademicStandards.
- Write mathematical problems for each AcademicStandard.
- Observeamathematical classroom at Elementary Level, write a critical report on how these classroom processes helps the children to develop mathematical thinking.
- DevelopaMathsquestionpaperforanyoneoftheclassatElementaryLevel.
- Observe a Maths classroom at Elementary Level while transaction of a unit from introductory part to 'Do this', 'Try these', 'Think-Discuss' and exercises. Write a critical report on teachers role involve children in the classroom process and develop mathematicalthinking.
- Take any other publications, textbooks at Elementary Level. Compare the presentation of the content, concepts, exercise setc. Write a critical report on it.
- AnalysetheMathematicstextbooksofUpperPrimaryclasses withidentifying some concepts and procedures with problems. Develop some more activities and Teaching Learning Material (TLM) to understand those concepts and write a critical report onit.
- Identifytwo(2)conceptsineachareaofMathematicsandconstructAcademic Standardsonthoseconcepts. Writeacritical reportonit.
- Analyse any 5 problems done by 10 children. Identify strengths and weaknessesofconceptsonwhichstudentsperformed. Identify which concepts are formed and which are not formed. Write a critical report on it with reasons.
- Interview 10 children on 'Do this', 'Try this' and 'Think and discuss' exercises on a selected topic. Record all the answers of the children on whether objectives are achieved or not. Write a report on it and suggest remedial activities with TLM if the objectives are notachieved.
- Identify any two (2) concepts and browse different websites to collect 10 activity sheets on the concepts. Conduct a test with the help of activity sheets andanalysetheresults. Prepareactivities and TLM for remedial teaching.
- Identify five (5) verbal problems on a concept at Primary Level. Choose any other than textbook material from market. Ask any five (5) children to read and explain the solutions to the problems. Select other five students and ask themtoreadthetextbookandexplainthesolutionstotheproblems. Conducta groupdiscussiononthedoubtsraisedbythestudents. Prepareareport.
- Identifyabout20verbalproblemsonratiosandproportionsandclassifythem oncriteriaofprocessing.Preparestrategiestoteachtheseprocessesandwrite report on yourexperiences.
- Identify about 20 problems on simple linear equations and classify them on criteria of processing. Prepare strategies to teach these processes and write a report on yourexperiences.
- How can you copy an angles through constructions? Explain the teaching strategies.
- Explaintheteachingstrategies in learning the proofs in the geometry. Suggest some activities.
- Visit any Temple/ Mosque/ Church/ Gurudwara/ Palace/ Fort. Identify geometricalshapesusedintheirconstruction. Visualizethose constructions of geometrical shapes while the construction of saidplaces.

403[D] Pedagogy of Science Education (Classes VI to VIII)-II

Unit 4	 Content Unit-4: Teaching and Learning of Science Aims & Objectives of teachingScience Approaches to facilitate concept and skill development: Different ways of conducting inquiry: setting up simple experiments and investigationsin different contexts; Projects, Surveys, Open-ended investigations, 5E model. Characteristics of good Science class, Science teacher, role of theteacher. Science- museums, field trips, projects and exhibition. Preparing Year plans, Unit plans and Period plans based on conceptmaps.
4	 Aims & Objectives of teachingScience Approaches to facilitate concept and skill development: Different ways of conducting inquiry: setting up simple experiments and investigationsin different contexts; Projects, Surveys, Open-ended investigations, 5E model. Characteristics of good Science class, Science teacher, role of theteacher. Science- museums, field trips, projects and exhibition. Preparing Year plans, Unit plans and Period plans based on conceptmaps.
	 Science- museums, field trips, projects and exhibition. Preparing Year plans, Unit plans and Period plans based on conceptmaps.
1	Identifying, creating and using a variety of learning resources
4	 Assessingteaching-learningresourcessuchasbooks, films, multimedia packages for their relevance and ageappropriateness. Continuous Professional Development (CPD) of Science teachers (subject forums, connected groups, open learning educational resources, seminars, workshops, reading and reflections etc.)
6	 Unit-6: Assessment and Evaluation Connecting teaching, learning andassessment. CCE- Concepts, Formative Assessment in Science, processes and tools, Summative Assessment, nature of questions, weightages to Academic Standards, model question papers, indicators for valuation of answer scripts Developing different assessment strategies for individual and group assessment: Annotated drawings, pictures, illustrations, graphic organizers, probes, K-W-L charts, task based assessments, worksheets, reasoning questions for paperpencil tests, portfolios
6	 Assessing processskills Use of Rubrics, Rating scale, Checklist, Observation schedule Planning and preparation for evaluation: Blue print, scoring rubrics, designing tests, grading and reporting.
	6

Suggested Practicum:

• Interview a local scientist to understand how s/heworks.

- Take up a design and technology project integrating work, local empirical knowledge with science andtechnology.
- Observe a child learn a concept/perform a task in science class. Prepare and present areport.
- Design and conduct guided inquiry lessons forchildren.
- Analyse the Science textbooks and write a report on reflection of Academic Standards.
- List out the experiments from the textbooks at ElementaryLevel.
- ObserveaScienceclassroomandwriteacriticalreportontowhatextent this classroom processes are reflecting the nature ofScience.
- Preparation of a file on development of Science and biographies of scientists.
- Organize a field trip with students and submit areport.
- Preparation of a worksheet for children participation in field investigation activities.
- VisitDistrictScienceCentre/ScienceFair/Exhibition/INSPIREandprepare a report on at least five (5)exhibits.
- Preparation of some misconceptions in learning Science (motion, motion of planets, light, heat, gravity).

403-[E] Pedagogy of Social Science Education (Classes VI to VIII)-II

Sl. No.	Month	Unit	Content
1	Feb-2022	4	Unit-4: Teaching of Social Sciences
			Classroom management, making classroom inclusive.
			Planning for teaching- Year plan, Unit plan and Periodplan.
2	March-2022	4	Children's understanding of social science concepts, importance of socio-cultural context in understanding social science, constructing social science knowledge in classroom using open ended questions and group activities, difference between facts and opinions
			 Inquiry based approach, framing questions/problems,planninggroupwork,field work, collection of data, organization, interpretation and analysis of data,writing report.
			 Use of timelines, artifacts, official sources documents, records, files, texts, maps, personal letters, diaries, writings, oral history, field trips to museums and archives for teaching history, significance of the source, making interconnections between sources for reconstructing thepast.
3	April-2022	4	 Teaching Social Science with the help of stories, journey accounts, travel diaries, tables, graphs, texts, maps, role-play, visual images, films, field trips, survey, simulation, interview etc.
			 Integrating ICT for social science teaching within learner's own contextual meaning, using case based reasoning, flowcharts, and concept maps, documentaries, serials, history and geographyfilms. Role and responsibility of a good Social Science teacher for transaction of concepts, classroom management, making classroom inclusive
5	June-2022	5	 Unit-5 Teaching Learning and Assessment in Social Science Need and importance of reforms in assessment and evaluation, CCE in Social Science.

			 Formative and Summative Assessment, purpose of assessment,reporting. Tasks and tests for assessing critical abilities, process skills, application of knowledge to new contexts, and transfer oflearning. Variety of assessment methods and techniques - Teacherobservations,teacherdesignedtasksand tests, work sample portfolios,projects. Use of authentic contexts, case studies, complex problem solving forassessment. Using resource materials, novel (new) materials for thinking andreflection. Problem solvingrubrics. Planning and preparation for evaluation-Blueprint(weightagesforacademicstandards), model questions, model question paper, indicatorsforvaluationofanswerscripts, CCE Record
6	July-2022	6	Unit-6: Challenges and issues in teachingelementary social science(to be transacted through discussions amongst studentteachers) • Resources for teaching social science, primary and secondary sources, translated materials, ICT based resources, opensources • Teacher knowledge -deep and thoughtful understanding, using instructional methods and assessment strategies in differentsettings, • Developing students' interest and engagement, using children's prior understandingstoconnectwiththepresent • Challenges in integration of ICT and other innovative technology in education in teaching SocialScience. • Social and cultural issues in teaching social science • Vision of a good classroom, Role of the teacher, Continuous Professional Development (CPD) of teachers-subjectforums, connectedgroups, open learning resources, seminars andworkshops, reading and reflections

Suggested Practicum:

• Choose a few regions in the country and draw up a list of different festivals celebrated in those regions. Which are these celebrations are sharedby

- different regional and religious communities? Find out how the historical and geographical factors have influenced the diversity found there. Explore the connections between the historical and geographical factors.
- Discuss the most significant technological, economic, social and cultural changes taking place in the town/village in which you live, in a group. Which sources will you use to find out about these changes after a period of twenty years? What questions will you frame? Which sources are likely to reveal more? Write your findings in the form of areport.
- You are a historian. Choose the economic/ social/ political history of your region and discuss how you will teach it to your students.
- Find out where records are kept in your village/ city. What are the types of records? Whowrites these records and who are the people who use them?
- Make a weather calendar for one-week collecting data from newspapers. Use pictures or symbols to show different types of weather. Analyse the data and present your findings with the help of charts and diagrams.
- Prepare a project about an issue connected with the working of your State Government like an education programme, any law and order issue, midday meal scheme, etc. Collect stories, interviews, poems, case studies, newspaper reports.Readthecollectedmaterialandwriteyourobservations, analyzing and evaluating theprogramme.
- Thinkofacommonthingweuse, example, tea, milk, sugar, paper, etc.
- Represent in a visual form, the chain of events that takes place before it reaches you. Discuss the concepts of market, labour and exchange in this process and think of a suitable teaching strategy to teach these concepts to yourstudents.
- Observe Social barriers prevailing in your village and suggest possible solutions.
- Prepare a brochure on your village by incorporating historical, geographical, political and economicaspects.
- Conduct Mock Assembly/ Parliament on any one of the important issues of society and write areport.

405- TOWARDS UNDERSTANDING SELF - II (Self Development Paper)

Sl. No.	Month	Unit	Content			
1	Feb-2022	W1	 Workshop 1: The Power of myth Objectives Re-appraisal of myths as representations of a culture's world-view and embeddedvalues To appreciate the reach of the mythic imagination Develop critical awareness of 'modern myths' that implicitly shape ourlives Suggested workshop themes Reading and analysis of myths from different cultures Distinction between myth as 'false stories' or 'imaginative prescientific accounts' and myth as an implicit and culturally shared 'structure of apprehending reality' and a 'basis of feelingand thinking' Exposure to manifestations of mythical thinking in contemporarylife The mythical basis and imagery of 'modern science' and 'modern economics' Becoming cognizant of the myths that shape one's worldview andvalues 			
2	March-2022	S1	 Format: Student-teachers present, via different media – narrative, photographs, audio-visual presentation, illustrated poster etc - stories of Indian children growing up in vastly differing circumstances; sharing to be followed by discussion Preparation: Resource books and films to be gathered; each student-teacher picks a particular type of childhood and researches the life situation, the opportunities and constraints ofan imaginary or real child from this circumstance; photographs, interviews etc. may be used. 			
3	April-2022	W2	 Workshop 2: Gender and upbringing Objectives Understanding the role of culture (apart from biology) as determinants of gender distinctions in socialliving Awareness of factors that shape gendered roles in Indiansociety Developing a critical perspective on gender- based discrimination and itseffects 			

			Suggested workshop themes Telling our own 'gendered' stories En-culturing 'gendered' roles in upbringing
			withindifferentkindsoffamilies—casestudies • Genderissuesinschooleducation—casestudies
			 Gender issues manifest in contemporary public spaces – case studies Responding to various forms of gender discrimination
		W3	Workshop 3: Deconstructing the messages of advertising (in the audio-visualmedia) Objectives To appreciate the impact of television advertising on children andadults To analyze the 'constructed' imagery and overt as well as subliminal messages communicated throughadvertisements To enable a critical distance from the power of advertising(especiallyoftheaudio-visualkind) Suggested workshop themes The expanding role of advertising in contemporarylife Sharingfavoriteadvertisementsandtheirimpact on us Looking from the other side: how psychology, research, technology and imagination combine to create a 'targetedcommercial'
			 Viewing and analyzing a series of advertisements Constructing an effective advertisement (group task) How to be a critical and media-literate viewerof advertisements
4	June-2022	S2& W4	 Seminar 2: Selection of short readings and dialogue Format: A selection of short but provocative readings on issues of life and education, to be read together, followed by exploratory dialogue in smallgroups Preparation: Making a careful selection of readings that lend themselves to a non-polemic discussion and exploration Workshop 4: Theatre for awareness of body, self and the other Objectives To explore body-awareness, movement, coordination and cooperation

		1	
			 To develop awareness of non-verbal modes of communication with self andothers
			Exposure to effective use of speech and communication through
			theatreexercises
			Suggested workshop themes
			 Sensitize students about their inherent potentialities. Components— activities related to body and mind, senses, emotions, imagination, concentration, observation, introspection.
5	July-2022	W5& S3	Workshop 5: Visualizing a 'School from Scratch' – alternatives in education Objectives
		55	• To think through, in discussion with others, the conception of a 'school from scratch' – its intentions, essential ingredients and essential processes (ie. aims, curriculum,pedagogy)
			Todiscussthejustificationsforeachconception, and identify the educational and practical dilemmas arising in eachcase
			Suggested workshop themes
			 Visualizing individual conceptions of a 'school fromscratch'
			• Working in groups to develop a collective conception of a 'school fromscratch'
			 Presenting to the larger group each conception of 'school from scratch' along with the process of arriving at this and the justifications for its various elements; for each case documentingthe discussion, questions raised, and issues arising Observing a few films of schools that represent alternatives
			ineducation
			Seminar 3: Education and environmental crises
			• Format: Film and presentation or reading of a text; small group discussions around selected themes drawn from the film; sharing of implications foreducation
			Preparation: Selection of a contemporary documentary or audio- visualpresentation

Suggested Practicum:

- Reading and analysis of myths from different cultures
- Distinction between myth as 'false stories' or 'imaginative pre-scientific accounts' and myth as an implicit and culturally shared 'structure of apprehending reality' and a 'basis of feeling andthinking'
- Exposuretomanifestationsofmythicalthinkingincontemporarylife
- Themythicalbasisandimageryof'modernscience'and 'moderneconomics'
- Becoming cognizant of the myths that shape one's worldviewand values
- Telling our own 'gendered'stories

- En-culturing'gendered'rolesinupbringingwithindifferentkindsoffamiliescasestudies
- Gender issues in school education casestudies
- Genderissuesmanifestincontemporarypublicspaces-case studies
- Responding to various forms of genderdiscrimination
- The expanding role of advertising incontemporary life
- Sharingfavoriteadvertisements and their impactonus
- Looking from the other side: how psychology, research, technology and imagination combine to create a 'targetedcommercial'
- Viewing and analyzing a series of advertisements
- Constructing an effective advertisement (grouptask)
- Howtobeacriticalandmedia-literateviewerofadvertisements
- · Visualizing individual conceptions of a 'school fromscratch'
- Working in groups to develop a collective conception of a 'school from scratch'
- Presenting to the larger group each conception of 'school from scratch' along with the process of arriving at this and the justifications for its various elements; for each case documenting the discussion, questions raised, and issuesarising
- Observing a few films of schools that represent alternatives ineducation

APPENDICES

ANNEXURE-I Guidelines for Transacting the Field-based Projects [Internal Assessment]

FIELD-BASED PROJECT WORK

ProjectWorkismandatoryforeveryStudentTeacherintheD.El.Ed.Course.All the Student Teachers are supposed to maintain the Project Work Record in each subject/paperandsubmitittotheFacultyatendofthesemesterforvaluation.

DETAILED PROCEDURE FOR CONDUCT OF PROJECT WORK

What is a Project (work)?

Cambridge Advanced learner's Dictionary (2003) defines "project" as:

- 1. A piece of planned work or an activity which is completed over a period of time and intended to achieve a particularaim.
- 2. Astudyofaparticular subject done over a period of time, especially by students.

The most detailed definition of "project" we can find in The New Penguin English Dictionary (2000):

- 1. Aspecificplanordesign; ascheme
- 2. Aplannedundertaking; e.g.a) apieceofresearchwithadefiniteplan.b) alarge or complexpieceofwork, especially one involving joint effort.c) at askorproblem engaged in usually by a group of a pupils, especially to supplement and apply classroomstudies.

Ineducationalcontext,theprojectworkshouldbelearner-centeredactivity,nota teacher-centered or syllabus-centered one. The student teachers have to understand why they make a project and how it is useful for them. The best way is when they can choose the topic of the project themselves. They usually work in groups/individually and they developtheirhigherorderthinkingskillsandcooperateandcommunicatetogether. They choose the way of work, divide tasks and agree on the output of the project. At the end, they present the result of their project in the class room and the teacher-educator evaluates not only the project but also the work of each one of the month eproject.

Nature of projects:

The Projects cover a wide range of themes that are socially relevant. The Student Teachers have to explore the theme by collecting data, consolidating it by using different formats, write reports on them and make presentations in the whole class. There is space for individual work, pair work and also group work. In addition to the projects suggested in the syllabus, the concerned Faculty/Lecturer can go form or eprojects related to the themes/concepts that are dealt with.

Process/Procedure for conduct of the Project/s

Projects take place in various stages such as:

- Brainstorming on the nature of theproject,
- Designing tools for the collection ofdata,
- Collecting thedata,
- Consolidating the data using different formats,
- Analysis and Interpretation of thedata,
- Reportwriting,
- Presentation.

Sufficient brain storming is extremely important for doing the projectas the studentteachershavetounderstandthepurposeoftheproject,itsscopeandsignificance withoutwhichtheywillnotbepsychologicallyreadytocarryitout. Atvariousstages, the Faculty/Lecturer has tomonitor the progress of the work, the involvement of the Student Teachers, and s/he should take care of guidingthem whenever necessary. The faculty/Lecturerisnotsupposedtoprescribeanytoolsorformats,butshouldinteractwiththestu dent teachers in such a way that these will be evolved in a democratic manner. Theinteraction will also lead them to decide which stage of the project needs to be doneindividually, in pairs or in groups. We have to be clear about the time that each projectworkmighttake. Makesurethattheworkismanageablewithinastipulatedtime.

The crucial questions during the brainst or mings ession with the student-teachers may include

1. How will you collect/pool theinformation?

(ToolssuchastheMaterials,Questionnaire,Checklist,ObservationSchedule, Interview, Referencing etc. help us in this regard)

2. Where will you get the information from?

(Resourcessuchasmaterials, people, books, journals, magazines, newspapers, institutions, internet etc come under this category.)

3. Who will collect theinformation?

(Individuals/ pairs/ groups)

4. How will you consolidate theinformation?

(Sharing in groups and recording the data using appropriate formats) Class X - Handbook 79

5. Whatanalysiscanbemadebasedonthedata?

(Discussing and linking the information to arrive at proper conclusion)

6. Howtowritethereport?

(This relates to the structure of the report that contains the name of the project, purpose, scope and relevance of the project, sources of/for data collection, tools developed, mode of collection of data, consolidation and analysis, findings with supportive evidences such as photographsetc.)

7. How will you present the findings beforeothers?

(Presenting the Project report by each member/student teacher before the wholeclass).

Classroom Process/Procedure

Theteachereducatorhastobrainstormonthenatureoftheprojectandencourage the student teachers to evolve the tools required for carryingout the work. Thefollowing process issuggested.

Stage I: Brainstorming (One/two period/s)

- Interaction on the tasksuggested
- Brainstormingontheinformationtobecollected, sources of data collection, tools required type of work to be done, formats for consolidation, analysis and reportwriting.
- Encourage the student teachers to decide the toolsindividually
- Sharingingroupsandreachingatconsensusonthetools
- Building up consensus in the wholeclass

At the end of this session, it is expected that all Student Teachers will have a fair understanding of the nature of the project work and how it is to be carried out.

Stage II: Data Collection (3 to 4 days/ one week – homework)

- Collecting data (Home task which maytake one week)
- Oncethedataiscollected,thenextstageisconsolidatingthedata. This is to be followed by brainstorming on the structure of the report.

Stage III: Consolidating the data and deciding the structure of the Report (one period)

- LetStudentTeacherssitingroupsandsharewhattheyhavecollected;
- They have to record the data using a certainformat;
- Brainstorming on the structure of thereport.
- Questions may be asked to elicit the steps in reportwriting.

Steps in Report Writing (Write the structure on the chart/BB).

- Title/Name of the project:
- Material/sources of datacollection
- Tools for datacollection:
- Consolidated data (using various graphic organizers such as table, pie diagrams, bardiagrams, fish bone diagramsetc.)
- Analysis interpreting data and capturing the data in descriptive statements, incorporating supportive evidences like photographs and pictures.
- Findings and conclusion
- Reflections, suggestions on the project.

StageIV:Writingthereport(2days-canbegivenashomework)

StageV:RefiningandPresentingtheReport(2/3periods)

- Let them sit in groups and refine the report
- Let them share and discuss the merits/mistakes forrefinement.
- Monitoring the group work by the Faculty/Lecturer

Stage VI: Presenting the Report

- Presentation by the student teachers ingroups/individually.
- Let the student-teachers present what they havewritten.
- Thereportwillhavevariouspartsinit. Groups can divide the seamong the members so that each member can present one part of it.

EVALUATION OF PROJECTS

Individual performance

- During the brain stormingstages;
- Sharing in the group;
- Presentation of thereport;
- $\bullet \quad The tools developed by the individual after the brain storming session. \\$
- The data collected and how it is entered in thenotebook.
- Writing the individual report.

Indicators like the following may used for evaluating the written work.

- **Tools:** their relevance, well-formedstructures
- **Data collected:** relevance of the data, comprehensiveness, well-formed structures
- Analysis: linking the data for critical analysis
- **Report:** the indicators include (appropriate title, objective, scope, relevance organization-analysis).

Indicators like the following may be used for evaluating the oral work

- ideas areconveyed
- properlyarticulated
- contextually relevant languageused

Awarding Marks for the Projects

When the project work is to be evaluated for 10 marks, 6 marks may be allotted for the written work (preparation of tools 2; collection of data and analysis-2, report writing-2), and 4 marks for the oral presentation of the report.

Wherevertheprojectmarks are prescribed for 20/25/30, similar procedure may be adopted, which is presented below.

Whentheproject workistobeevaluatedfor 20 marks, 12 marks may be allotted for the written work (preparation of tools 4; collection of data and analysis-4, report writing-4), and 8 marks for the oral presentation of thereport

Whentheproject workistobeevaluatedfor25marks,15marksmaybeallotted for the written work (preparation of tools 5; collection of data and analysis-5, report writing-5), and 10 marks for the oral presentation of thereport.

Whentheproject workistobeevaluatedfor 30 marks, 20 marks may be allotted for the written work (preparation of tools 5; collection of data and analysis-5, report writing-10), and 10 marks for the oral presentation of the report.

Some sample projects are given below: (These are only suggestive, not exhaustive)

Sl.N o.	Title of the Project	Sources for data collection	Mode of collection	Tools	Nature date and interpretation	Reporting style/ Modeof presentation
1	How do the modern gadgets influence human relations/ life?	Home visits, observation	Works in groups	Interview, Questionnair es, etc.	Format for data collection: typeof gadget, human relations/life before and after theiradvent.	Reportwriting with theirown opinions.
2	Festivals people celebrate in one's neighbourhood	Meeting the different people, participating in the local festivals.	Participation , Work in groups	Interview, Questionnair es, participation	Data in the Tabular form, photos, videos, etc.	Write an essay,
3	Talk to your grand- parents about their life 60 years ago. How the plants, animals, water bodies were cared for, then?	Meet elderly people	Work in groups/ individually	Interview/ questionnaire s	Data to be in the table format: information now and 60 yrs. ago.	Write an essay on the protection of environment; give aspeech on the environment.

Lime Powder

Sl. No.	Subject Matter	Duration in Minutes	Methodology
1	Assembly and Roll Call	2	Formation: Single Line
			Method: The Teacher brings the class in a single line and attendance is taken by using the following commands.
			Shortest on left, Tallest on right
			Classin a single line fall – in
			Class Attention
			Class Right dress
			Eye front
			Class from the right Number.
2	Introductory / or / Warming up	5	Formation: Circle Method: After roll call, the teacher shifts the class into a circle formation by giving the following command. "RIGHT TURN AND FOLLOW ME" Then he starts the Exercises as given below, to fit for the activity.
			Fly like a bird jump like a frog
			Walk like a bird

Sl. No.	Subject Matter	Duration in Minutes	Methodology
3	Slow running Fly like a bird Jump like a frog Walk like an elephant Move like a bus Formal Part	Minutes 6	Jump like a from Walk like an elephant Move like a train Move like a bus and etc. Formation: Three Rank Method: The class is broughtinto openorderformationbyusingthe following commands
			Open Order Formation: Number ones stay where you are, Number twos two steps, Number threes four steps, Open Order forward march, 1, 2, 3, 4 up Class half right turn, Stand - at - ease. Demonstration of Exercise: The teacher has to demonstrate the exercise with suitable explanation by taking a comfortable position from where he can see all the students and
	Verbal Command PositionAttention Count-1: Arms sideward raise. Count-2: Arms upward raise Count-3: To the first position return Count-4: Position		all the students can also see him. Verbal Explanation: Count-1: Raising arms sideward up to shoulder level, palms facing the ground, don't bend at elbows, fingers together, body erect and look straight. Count-2: Raising arms upward at shoulder width, palms facing each other, fingers together don't bend at elbows, body erect and look straight. Count -3: Return to the FirstPosition Count-4: Position Teaching by Counts: The demonstrated exercise shall be taught by counts by holding each position and correct the mistakes. Continuously and Rhythmically: After teaching by counts the same

Sl.	Cubicat Matter	Duration	Mathadalam
No.	Subject Matter	in Minutes	Methodology
			exercise shall be done continuously and rhythemically for few times to get physiological benefits.
			Afterpracticingtheexercise, students are brought back to the line formation by using the following commands.
			Close order formation: Class half left turn About – turn
			Number ones stay where you are Number twos wait for threes Number twos and threes join ones Close order forward march 1,2,3,4 up Class – about – turn.
4	Special Part (Action Song)	7	Formation: Semi Circle Method: The class is brought into semi circle by using the following commands "join your hands and form a semi circle ready go", "hands down".
			The teacher has to demonstrate the action song with verbal explanation. Then teacher has to ask the studentsto do the same action. The teacher should correct the mistakes until getting perfection.
	JohneyJohney Yes PapPa Eating Sugar No Pappa Telling Lies No Pappa Open Your Mouth Ha Ha Ha.		Action Song: JohneyJohney Yes PapPa Eating Sugar No Pappa Telling Lies No Pappa Open Your Mouth Ha Ha Ha.
5	Recreation Part (Forward Running Relay)	8	Formation: Two files
	,		Method: Theteacherdivides the class in to two equal groups. Both the groups have to stand behind the starting line in file formation. At a given signal the first person of both groups has to run towards the cone, turns around it and run towards the group, touch the next person of his group and join at the end of the group. Likewise the game will be continued until the last person of the both groups. The group, which finishes first, will be declared as the winners

Sl. No.	Subject Matter	Duration in Minutes	Methodology
			and other group as losers. Winners will be honoured with three cheer claps by losers and Losers with three claps by winners.
6	Re-Assembly and Dismissal (Jai Hindi)	2	Formation: Single Line Method: The class is brought into single line formation. After reviewing the lesson the class is dismissed by saying 'Jai Hindi' on the command of "Class Dismiss"

14. OBJECTIVES & INTERVENTIONS OF SARVA SHIKSHA ABHIYAN & RMSA

Sarva Shiksha Abhiyan(SSA)

1) Objectives:

- All children in school, Education
- All children complete Five Yearsof
- by2010
- Focusonelementaryeducationofsatisfactoryqualitywithemphasis on education forlife.
- Bridge all gender and social category gaps at primary stage by 2007 and at elementary education level by 2010and
- Universal retention by 2010.

2) Interventions:

- 1) Opening of new PrimarySchools.
 - Upgrading EGS / ALS into Primary Schools.Primary Guarantee Centre, Alternative School, Back-to-School camp by 2005.schooling by2007.
- 2) All children complete eight years of elementaryschooling
- 3) UpgradingPrimarySchoolsintoUpperPrimarySchools.
- 4) RegularTeacherstoNewPrimary&UpperPrimarySchools.
- 5) AdditionalTeacherstoexistingPrimary&UpperPrimarySchools.
- 6) CivilWorks-ConstructionofSchoolBuildings, AdditionalClassrooms, MRC Buildings, Rooms for School complexes, provision ofCompound walls, Toilets, Electrification& drinking waterfacilities.
- 7) Strengthening of Mandal Resource Centeres and School Complexes.
- 8) Maintenance grant to Schools under Government and Local Bodies with ownbuildings.
- 9) Grants School Grants & TeacherGrants
- 10) Teaching Learning Equipment to New Primary & upgraded Upper PrimarySchools.
- 11) Training of Teachers.
- 12) Innovations-GirlsEducation, EarlyChildhoodEducation, Education of SC & STs, educationally disadvantaged minorities urban deprived children and Computer Education in UPSchools.
- 13) Research, Evaluation, Supervision & Monitoring.
- 14) Provision for Children with SpecialNeeds.

- 15) Training of CommunityLeaders.
- 16) Interventions for Out of SchoolChildren.
- 17) ImplementationofactivitiesunderNationalProgrammeforEducationof Girls at Elementary Level(NPEGEL).
- 18) OperationalizationofKasturbaGandhiBaalikaVidyalayas(KGBVs)for the education of Girls belonging to SC, ST, BC, Minority and other marginalizedgroups.

RashtriyaMadhyamikShikshaAbhiyan (RMSA)

Vision

The vision for secondary education is to make good quality education available, accessible and affordable to all young persons in the age group of 14-18 years. With this vision in mind, the following is to be achieved:

- Toprovideasecondaryschoolwithinareasonabledistanceofanyhabitation, which shouldbe5Kmsforsecondaryschoolsand7-10Kmsforhighersecondaryschools;
- Ensure universal access of secondary education by 2017 (GER of 100%), and Universal retention by 2020; and
- Providing access to secondary education with special references to economically weakersectionsofthesociety, the educationally backward, the girls and the disabled children residing in rural areas and other marginalized categories like SC, ST, OBC and Educationally Backward Minorities (EBM).

Goals and Objectives

The prime goal is universalisation of secondary education. In order to meet the challenge of universalisation of secondary education (USE), there is a need for a paradigmshiftintheconceptualdesignofsecondaryeducation. Theguidingprinciples in this regard are: universal access, equality and social justice, relevance and development and structural and curricular aspects. Universalisation of secondary education gives opportunity, to move towards equity. The concept of 'common school' will be encouraged. If these values are to be established in the system, all types of schools including unaided private schools will also contribute towards universalisation of secondary education by ensuring adequate enrolments for the children from under privileged society and the children of below poverty line (BPL) families. The goals translate into the following mainobjectives.

 i) To ensure that all secondary schoolshave physical facilities, staff and supplies at least according to the prescribed standards through financial support in case of Government/ Local Body and Government aided schools, and appropriate regulatory mechanism in the case of otherschools;

ii) To improve access to secondary schooling to all young person's according to norms – through proximate location (say, Secondary Schools within 5 kms, and Higher Secondary Schools within 7-10 kms), efficient and safetransport

- arrangements/residential facilities, depending on local circumstances including openschooling. Howeverinhilly and difficultareas, these norms can be relaxed. Preferably residentials chools may be setup in such areas;
- iii) To ensure that no child is deprived of secondary education of satisfactoryquality due to gender, socio-economic, disability and otherbarriers;
- iv) To improve quality of secondary education resulting in enhanced intellectual, social and culturallearning;
- v) To ensure that all students pursuing secondary education receive education of good quality; and

Achievement of the above objectives would also, inter-alia, signify substantial progress in the direction of the Common School System.

Teachers Play the following roles in shaping students future

- 1. Teachers nurture students' self esteem: What a student believes about him, or herself is critical teachers act as guardians in helping students to be confident inthemselves.
 - By creating a good relationship with students, teachers can motivate their students into self belief.
- **2. Teacherspromoteself–determination:** When students have the confidence in themselves, they are more likely to attain their goals in life and secured.
- **3. Teachers create positivity in a student:** One study concluded, when a teacher is approachable, well focused and is sensitive to student's needs, studentssendtoexceedinglywellandcanparticipatefreelyininteractions.
- **4. Teachers create active learning relationships:** Engaging student's inactive group discussion and peer interaction builds the students social skills. The mind of the student can beactive.
- **5. Teachersenhanceacademicabilities:** Teachersengagestudentsinacademic learning. Teachers give challenging assignments tests and evaluation that required student's reflection.
 - This helps students reflect on ideas that assist them to build on their academic performance.
- **6. Teachers create curriculums that foster student's development:** Learning instructions have friendly and educative curriculums for students. The curriculumscreatecomprehensive and interactive learning environment within the classroom and outside.

- 7. Teacher help students understand their strength and weakness: By actively engaging students, teachers can know and learn each student's strength and weaknesses. Through evaluation teachers guide students on the bestwaytoworkhardontheirweaknessas wellasbuildtheirstrengt h.
- 8. Teachers teach problem solving skills: Students at an early age are might howtoapplyproblemsolvingskills. As they solve problems, decis ion making skills are developed as well.

 Students are given assignments that trigger their critical mind and thinking. Assuring students allow them a sense of ownership.
- **9. Teacherscurbharassment:**Studentsbullyingisaconstantfeatu reinleaning institutions. Teachers play a crucial role in distracting and Testing such behaviours among students instead, they impact social responsibility and interaction. It can lead to depression thus it is discouraged in schools and colleges.
